

## *Great Debates In Equity And Trusts (Palgrave Great Debates In Law)*

**An engaging introduction to the more advanced writings on property law, designed to provide the additional insights necessary to excel in the study of the subject.**

**Thanks to these generous donors for making the publication of this book possible: David Lerman and Shelley Wallock; D. Walter Cohen, Wendy and Leonard Cooper; Rabbi Howard Gorin; Gittel and Alan Hilibrand; Marjorie and Jeffrey Major; Jeanette Lerman Neubauer and Joe Neubauer; Gayle and David Smith; and Harriet and Donald Young. Ever since Abraham's famous argument with God, Judaism has been full of debate. Moses and Korah, David and Nathan, Hillel and Shammai, the Vilna Gaon and the Ba'al Shem Tov, Spinoza and the Amsterdam Rabbis . . . the list goes on. Jews debate justice, authority, inclusion, spirituality, resistance, evolution, Zionism, and more. No wonder that Judaism cherishes the expression machloket l'shem shamayim, "an argument for the sake of heaven." In this concise but important survey, Rabbi Barry L. Schwartz presents the provocative and vibrant thesis that debate and disputation are not only encouraged within Judaism but reside at the very heart of Jewish history**

**and theology. In his graceful, engaging, and creative prose, Schwartz presents an introduction to an intellectual history of Judaism through the art of argumentation. Beyond their historical importance, what makes these disputations so compelling is that nearly all of them, regardless of their epochs, are still being argued. Schwartz builds the case that the basis of Judaism is a series of unresolved rather than resolved arguments. Drawing on primary sources, and with a bit of poetic license, Schwartz reconstructs the real or imagined dialogue of ten great debates and then analyzes their significance and legacy. This parade of characters spanning three millennia of biblical, rabbinic, and modern disputation reflects the panorama of Jewish history with its monumental political, ethical, and spiritual challenges.**

**the main themes in this dynamic area of the law. An ideal first point of entry to the subject or revision tool, this book will give you an invaluable grounding in all of the key principles of equity and the law of trusts. If you need help with trusts law, then this is the book for you. This book covers all of the topics that a student reader will encounter in any trusts law or equity course. The text deals with express trusts, resulting and constructive trusts, the duties of trustees, breach of trust and tracing, commercial uses of trusts, charities, equitable remedies and trusts of homes. The law of trusts is built on simple basic principles. The approach of this book is to lay foundations with an explanation of those principles before building towards the more complex issues which are the focus of examinations in this subject. The lively text includes a large number of straightforward examples to make the discussion of the general law more accessible.**

**This book is a provocative, interdisciplinary, and critical appraisal of civil justice, property, and the laws that shape and command them within capitalism. Dr. Herian's book is both a complementary and countervailing narrative to many mainstream legal accounts, one that critiques core and influential areas of legal knowledge and practice. Central to the book's thesis is a rich collaboration of ideas and perspectives that consider what is at stake from institutions, concepts, and practices of equity and civil justice tied to the subjective psychic life and the**

**unconscious desires of capitalist stakeholders. The book aims to address several questions, including how capitalism has imagined and shaped equity and civil justice since the nineteenth century; how capitalism acts as a well-spring of desire for forms of justice that wrap-around and sustain complex frameworks of private property power and ownership; and how equity supports agile neoliberal strategies of justice and reason in the twenty-first century.**

***Principles of Equity and Trusts is a concise new textbook from Alastair Hudson - the author of the definitive classic, Equity and Trusts. Through clear and careful analysis, the author explains what the law is, its foundational principles, and its social and economic effect. By beginning with the core principles on which this field is based, even the most complex academic debates concerning express, resulting and constructive trusts, the family home, charities law and other equitable doctrines become comprehensible and interesting. This book offers a***

***fresh, lively and often humorous account of Equity and Trusts. Through easy-to-follow worked examples and analysis of the case law, Alastair helps you to answer problem questions and to prepare coursework. The author shows how the law affects real people in real situations. Each chapter begins with a clear and concise introduction to the core principles. It contains numbered headings for ease of navigation and advice on studying this subject. Students also have access to Professor Hudson's ever-popular supporting website which has had hundreds of thousands of hits over the years. It has over 50 brief podcasts on key issues which have been specially re-recorded to coincide with the publication of this book. That website also contains detailed lectures, a variety of videos explaining the law and guidance on tackling assessments. Characterised by the passion and enthusiasm for his subject matter that make Alastair Hudson's classic textbook so popular, Principles of Equity and Trusts is sure to be a winner with both academics and students alike.***

Great Debates in Criminal Law

Great Debates in Law is an evolving series of engaging and thoughtful introductions to more the advanced concepts, written by authors who are amongst the foremost thinkers in their field.

The series focuses on the key tensions and questions underlying a subject, setting legal developments in their philosophical and cultural context and exploring the issues as matters of current debate. Going beyond what is covered in the main textbooks, the series provides a cutting edge for students who are looking to gain additional insights with which to excel.

This collection of critical essays considers the criminalisation of squatting from a range of

## Get Free Great Debates In Equity And Trusts (Palgrave Great Debates In Law)

different theoretical, policy and practice perspectives. While the practice of squatting has long been criminalised in some jurisdictions, the last few years have witnessed the emergence of a newly constituted political concern with unlawful occupation of land. With initiatives to address the 'threat' of squatting sweeping across Europe, the offence of squatting in a residential building was created in England in 2012. This development, which has attracted a large measure of media attention, has been widely regarded as a controversial policy departure, with many commentators, Parliamentarians, and professional organisations arguing that its support is premised on misunderstandings of the current law and a precarious evidence-base concerning the nature and prevalence of 'squatting'. *Moral Rhetoric and the Criminalisation of Squatting* explores the significance of measures to criminalise squatting for squatters, owners and communities. The book also interrogates wider themes that draw on political philosophy, social policy, criminal justice and the nature of ownership, to consider how the assimilation of squatting to a contemporary punitive turn is shaping the political, social, legal and moral landscapes of property, housing and crime.

Alastair Hudson's Equity and Trusts is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies. It provides a clear, current and comprehensive account of the subject. The author's enthusiasm and expertise shine through, helping to bring to life an area of the law which students often find challenging. The tenth edition of Equity and Trusts remains the most comprehensive and up-to-date coverage of the law of Equity and Trusts, while still a lively and thoughtful account of the issues raised by it. This book has been cited as being authoritative in the courts of numerous countries. The tenth edition is supported by the author's website at [www.alastairhudson.com](http://www.alastairhudson.com) with brand new resources including: □ short podcasts discussing and clarifying key topics from within the book, which cover an entire course; □ complete lecture recordings made specifically to accompany this book; □ video documentaries bringing to life selected key topics; □ a host of other online materials and study guides new for 2021.

Der pacta-tertiis-Grundsatz, wonach Verträge für Dritte ohne ihre Zustimmung weder Rechte noch Pflichten begründen, gilt als einer der Grundpfeiler des Völkerrechts. Die Frage nach der Existenz etwaiger Ausnahmen wird jedoch oft nur oberflächlich und auf wenige Fallgruppen begrenzt gestellt. Andreas Witte geht neue Wege, indem er in Form von Fallstudien bislang weniger beachtete Konstellationen einer möglichen Drittwirkung von Verträgen untersucht. Zentrale Fragestellung ist, ob die dabei identifizierte Auswirkung eines Vertrags auf Nichtparteien eine schlichte Ausnahme von pacta tertiis darstellt, oder ob sie

## Get Free Great Debates In Equity And Trusts (Palgrave Great Debates In Law)

dogmatisch ohne das Postulieren einer solchen erklärt werden kann. Gelegentliche Seitenblicke in Form der - im Völkerrecht verbreiteten und nützlichen, jedoch nicht immer risikofreien - Zivilrechtsanalogie reichern dabei die Untersuchung an.  
The Great Debates in Entrepreneurship
