harder for me was learning to become the business owner I needed to be to run a successful boarding stable. This book is about what it takes to work in the horse industry and what barn management is really all about. This is the story of Vinland Stables in Neenah Wisconsin. My name is Sheri Grunski and I wrote this book to show you how we built our barn from nothing and what it took to get our business off the ground. It is really about what it takes to become the business person you need to be to run a boarding facility efficiently and with confidence. This is the most honest total

barn management book you will ever read and it is really two books in one. The first few chapters of this book is about my family's journey of building our barn and all that it took to get the loan and get the barn up and open for business. The reason I wrote the first part of the book is to help others that want to build a barn and show them all that goes with the building process both good and bad. We made a lot of mistakes in the building process so now I hope to help others so they don't end up with the mess we did. The rest of the book is about actually running a barn on a day to day basis with

clients and horses. It is the most complete barn management you will ever read. In this book, I will show you how to write a business plan if you are applying for a loan and give you examples of what our business plan looked like ten years ago and what it should look like now. I will show you what my boarding contract looks like and what you should have in your contract. Running a horse boarding facility is about so much more than feeding and cleaning stalls. In fact that is the easy part. In this book I will discuss subjects like: - herd management and the boarder - What do you do when two horses don't get

"Sorry but we do not offer that here." You will not find another book on the market that addresses these real situations in the horse business. I will share with you what we have learned over the years through many trials and errors. I will give you the tools to handle the most stressful situations. If you feel sometimes like you are alone in running your farm and no one else would understand the problems you are having, than read this book. Inspired by that British (BBC) television program called The Great British Bake Off and love, more pet owners are making homemade treats for their furry companions. Fueled by the rapid spread of information on the internet, there are what seems like an unending array of pet recipes. It's never been easier to treat Fido and King homemade artisan dog treats. And for those dog owners who haven't yet jumped into baking for their pets but are more than willing to buy gourmet treats, some of the best options can be found at

places often called pet bakeries. Whether the bakery is online or in a physical retail establishment across town, pet owners, especially those who own dogs, are willing to spend a reasonable amount of money so their pet can enjoy a delicious treat. More pet owners are developing the tendency to treat their four-legged friends with the same attention and appreciation as their children, for they have chosen to not have any of their own or are waiting for the right circumstances to have or adopt some. Another reason for

the rise in homemade treats is a growing realization that commercially bought treats contain dubiously healthy-if not shockingly dangerous- ingredients. For those owners who want to ensure their pets have nothing but food and treat with the healthiest ingredients, it's really not a long jump to creating homemade treats. After all, you can easily see this as a natural extension of food-buying if you're already dedicated to organic and natural ingredients in your own diet and that of your family. I started making various dog

treats at home out of necessity and to make sure our dog always had something healthy to eat. But my hobby quickly grew into a passion and soon I saw a demand for dog treats from extended family, friends and neighbors. The next step came almost naturally, after my husband suggested that I look into opening my own pet bakery, I started looking and researching the idea and soon enough the concept turned into reality and I never looked back. But this book is not about my success story but yours, in this book, I show you a step by
