In the Realm of Hungry Ghosts

Religious Training of Children in the School, the Family, and the Church. by Catharine E. Beecher ...

Piri Weepu 's story is one of the most fascinating New Zealand rugby stories ever told. Born into a strong rugby league family — Piri 's brother Billy actually played for the Kiwis — Piri has risen to the very pinnacle of rugby union, while at the same time never losing his great love of the 13-man code. At 28, and in the year of the Rugby World Cup in New Zealand, Weepu was finally given his opportunity . . . and didn ' t he take it well. For years he had been in the shadows of Jimmy Cowan (not to mention a number of other first-choicers) but on the world stage, Piri stepped up to the mark and won the hearts of a nation. He kicked the goals for the All Blacks, he kicked for position and, in the absence of the incomparable Dan Carter, he ran the backline. His man of the match performance for the All Blacks in the quarter-final against

Argentina and then another superb display against arch-rivals Australia in the semi-final cemented his place in New Zealand rugby folklore. This is more than a rugby story, though. This is a story of a little battler who has struggled with serious injury and fitness for a number of years, who has struggled to express himself because of an innate shyness, but who finally won over a nation on the greatest sporting stage.

The recent data controversy with Facebook highlights that the tech industry as a whole was utterly unprepared for the backlash it faced as a result of its business model of selling user data to third parties. Despite the predominant role that technology plays in all of our lives, the controversy also revealed that many tech companies are reactive, rather than proactive, in addressing crises. This book examines society's failure to manage technology and its resulting negative consequences. Mitroff argues that the "technological mindset" is responsible for society's unbridled obsession with technology and unless confronted, will cause one tech crisis after another. This trans-disciplinary text, edgy in its approach, will appeal to academics, students, and practitioners through its discussion of the modern technological crisis.

destruct button on both our lives than that. So when I get the chance to distract myself helping the sexy new SSPD detective on a new case - I'm all in. Except my ex keeps popping up—at crime scenes, around town with his girlfriend, in my fantasies at night. But I can't take him back, we both know I won't be around long enough for that. There's a timeline on my life, even if he won't admit it. ROMANCING REMI I don't gamble unless I know I can win. Simple as that. So, when my besties wagered I couldn't stay in a relationship for a month, I took the bet. Because, really, how hard can it be? Four weeks is like four dates. I can do anything four times. Right? But there was a flaw in my strategy. I didn't count on the relationship to be with HIM. The irresistible alpha-male from my past, Chance Bauer. The only man to ever make my insides quiver. Or for my feelings from so long ago to be the same. LOVING LEXIE What was I supposed to do? Trevor, my ex, had broken my heart. Again. You would have done the same. Because Cole Mason was just standing there. The rancher from Texas who had me silently begging for him to call me ma'am. Beckoning me with those dark-brown eyes I caught staring at me and a body I wanted to climb like a tree. I knew in time he'd either lasso my broken heart and fix it, or I'd pull a Trevor and break his. Looking back, I know for certain, I don't regret a damn thing. SEDUCING SADIE I'm a runaway bride. I just left my fiancé at the altar. Romance is the furthest thing from my mind. Still, I'm tempted to turn last night's fling into a thing. I mean, Ethan Stone is crazy hot. And he just uttered six simple words that turned my world upside down: "Why don't you just stay here?" So, imagine my surprise when I find myself moving in with him the morning after. Because, let's face it, this is a disaster in the making. TRUSTING TENLEY My fiancé's death almost killed me. It's been three years and I still can't move on. Not with life. And definitely not with love. But our friends keep pushing me to date. They say it

is time. So, I give in to get them off my back. One date with a girl I already don't like: Tenley Hughes. My plan? To be the perfect gentleman yet still be the worst date of her life. Then everyone will be happy and I can go back to misery not loving company. Except the date isn't bad. And it doesn't end at one.

The world seen from two set of eyes is enthralling, especially when those eyes belong to two who share the same genes but different lives. For example, Mel Martin's view of Alaska in the 1950s and 1970s is certainly different from Elizabeth Martin's Alaska of this century. Besides, a father and daughter can look at the same thing and see two different universes. The book stretches from the past to the future, from Alaska to Russia, and from everyday to unique experiences. It includes poetry, short stories, opinion pieces, and even limericks. The goal is to amuse, not educate. Yet, you'll find some nuggets from the Martins' combined 85 years of writing experience. Many of the

Excerpt: ...was the reward of obedience to God's laws, and temporal miseries were the penalties for disobedience. This period corresponded with that of schooltraining in childhood, before our duties resulting from the risks of the spiritual world are made practical in efforts to save others. Thus the Jewish dispensation is called "a schoolmaster to bring us to Christ." But, " when the fullness of time had come," in preparing mankind for another advance, Jesus Christ came and " brought life and immortality to light." Then, for the first time in this world, the true Church was instructed in its highest mission as the co-laborer with God to save our race from the dangers of the future life; and these so dreadful, that every earthly plan and hope, in comparison, are to be of no account. This enlarged plane of duty was not revealed to those who were training men in the preparatory stages. They walked by faith in some future Messiah, whose aim and mission they dimly foresaw. It was this to which Christ referred when he said, " I call you not servants, for a servant knoweth not what his Lord doeth, but I have called you friends." This is to say, now my Church are to understand the great end for which they are to labor--the great-principle fo govern all individuals, all nations, and all worlds--the great law of sacrifice, demanding that each shall make the best good of the whole, and, in reference to the eternal state, the first concern, and be ready to suffer even to the death to save, as far as

To heal addiction, you have to go back to the start...

Featured on Russell Brand's podcast Under the Skin Dr Gabor Maté is one of the world's most revered thinkers on the psychology of addiction. His radical findings - based on decades of work with patients challenged by catastrophic drug addiction and mental illness - are reframing how we view all human development. In this award-winning modern classic, Gabor Maté takes a holistic and compassionate approach to addiction, whether to alcohol, drugs, sex, money or anything self-destructive. He presents it not as a discrete phenomenon confined to a weak-willed few, but as a continuum that runs through (and even underpins) our society; not as a medical 'condition', but rather the result
