therefore they enabled women to

simultaneously performing their expected role of womanhood in the eighteenth century. One of these women was Abigail Adams, who mentioned in a letter to her husband in 1775: "My pen is always freer than my tongue" (Ellis 2). Adams fulfilled her conservative duties while she was longing for equality at the same time. How did she finally succeed in voicing her discontent in a patriarchal state? Before concentrating on this question, based on correspondences of the year 1776, called "Remember the Ladies", the general image of Womanhood in the historical and political development will be outlined including female approaches to the public sphere as well. Considering this

Finally, a thorough analysis of Abigail Adam's letters will be provided in the fourth part of the paper, which will point out in how far letter writing helps to successfully put forward her arguments.
