Marshal Grouchy.
Given command of

The Geography of
Insight argues

File Type PDF

Waterloo: Four

Days That

that it's appropriate for the sciences and humanities to have different aims and for the values informing their inquiries also to be different.

Richard Foley identifies four core differences: (1)

File Type PDF

Waterloo: Four

Days That

Changed

Europe's Destiny

it's proper for
the sciences but
not the
humanities to
seek insights
that aren't
limited to
particular
locations,
times, or
things; (2) the
sciences but not
the humanities
value findings

File Type PDF

Waterloo: Four

Days That

Changed

Europe's Destiny

as independent
as possible of
the perspectives
of the
inquirers; (3)
the sciences
should be wholly
descriptive
while the
humanities can
also be
concerned with p
rescriptiveclaim
s, which give

File Type PDF

Waterloo: Four

expression to
values; and (4)

the sciences are

organized to

increase

collective

knowledge

whereas in the

humanities

individual

insight is

highly valued

for its own

sake,

File Type PDF

Waterloo: Four

Days That

Changed

Europe's Destiny

independently of
its ability to
generate
consensus.

Associated with
these

differences is a
set of secondary
distinctions:

different

attitudes about

an endpoint of

inquiry;

different

File Type PDF
Waterloo: Four
Days That

notions of
intellectual
progress;
different roles
for expertise;
different
assumptions
about simplicity
and complexity;
and different
approaches to
issues
associated with
consciousness.

File Type PDF

Waterloo: Four

Days That

Changed

Europe's Destiny

Taken together these distinctions constitute an intellectual geography of the humanities and sciences: a mapping of key features of their epistemologies. In addition, the book discusses the special role

The network of agents supplied strategic intelligence, giving the British army advance warning of the arrival, destinations, and likely intentions of French reinforcements. The military network supplied operational intelligence, which
