Der Jazzpianist Evan Horne ist wieder zurück in der Musikszene. Nach einer einjährigen Zwangspause aufgrund seiner verletzten Hand wird ihm direkt nach seinem Comeback-Auftritt in L. A. ein Plattenvertrag angeboten. Doch sein Glück ist nur von kurzer Dauer, denn das FBI bittet ihn um Mithilfe bei der Aufklärung einer Mordserie an bekannten Musikern. Ist es ein besessener Fan oder ein eifersüchtiger erfolgloser Musiker, der am Tatort Aufnahmen mit der Jazz-Legende Charlie Parker, eine Vogelfeder und die Botschaft »Bird lives!« hinterlässt? Soll Evan Horne seinen Plattenvertrag und somit seine Karriere gefährden, indem er dem FBI bei den Ermittlungen hilft? Dass eine Agentin beim FBI, Andie Lawrence, ebenso intelligent wie attraktiv ist, macht ihm die Entscheidung nicht leichter.

Hugo and the Bird

From the sparrow to the starling, the woodpecker to the warbler, the eagle to the egret, and every species in between, birds are some of the most plentiful and most diverse creatures in North America. Soaring high above us, these winged beauties have long been a source of fascination and enchantment. While dozens of studies and field guides have been written, few provide a better-rounded overview of the denizens of the sky than Frank Michler Chapman's *Bird Life*. First published in 1897, over a century later *Bird Life* stills provides insightful observations about dozens of species of birds native to North America. A pioneer in the study of natural history and ornithology, Frank Chapman writes with scientific prowess and an expert's eye in regards to bird anatomy, migratory patterns, mating habits, and habitat choice. Describing species from across the continent, *Bird Life* is a true testament to one of the nation's most beloved creatures.

Lady Bird Johnson, That's Who! is Tracy Nelson Maurer's lively picture book biography of Lady Bird Johnson, with a focus on her environmentalist passion and legacy as First Lady. Who fought to stop pollution? Who helped make America cleaner and greener? Lady Bird Johnson, *That's Who!* Claudia Alta Taylor was a lonely girl, shy as a butterfly growing up in Texas. She never dreamed she'd blossom into a visionary leader whose love for wildflowers, beautiful landscapes, and building community compelled her to lead the effort to combat pollution in the United States. A lifelong environmentalist, Lady Bird Johnson embraced her platform as First Lady to promote policy that beautified America's roadways, waterways and parks, inspiring people to take pride in the places they live. With elements of women's history, civics, and conservationism, this is a timely and informative picture book biography.

Now that more than half of the world's population lives in cities, the study of birds in urban ecosystems has emerged at the forefront of ornithological research. An international team of leading researchers in urban bird ecology and conservation from across Europe and North

America presents the state of this diverse field, addressing classic questions while proposing new directions for further study. Areas of particular focus include the processes underlying patterns of species shifts along urban-rural gradients, the demography of urban birds and the role of citizen science, and human-avian interaction in urban areas. This important reference fills a crucial need for scientists, planners, and managers of urban spaces and all those interested in the study and conservation of birds in the world's expanding metropolises.

Betty Temple Watts (1901-1992) developed an interest in birds in her early married life while living in Iran and Papua New Guinea. Although she had studied art formally as a nineteen year old, it was not until she was 48, and settled in Melbourne, that she decided to immerse herself in her bird art. Betty spent much of her time practising drawing, but was constantly critical of the results. In spite of her harsh selfjudgement, others had a high opinion of her skill and, in 1952, she received her first commission, going on to provide bird illustrations for numerous publications until she was in her late eighties. *The Quintessential Bird* allows readers a glimpse into Betty's joyous world of birds. This is followed by the plates, reproduced in full along with 60 close-ups of individual birds.

"A Bird in a Cage" ist ein zweisprachiges Werk, das in den langen Jahren in Tokio in der Justizvollzugsanstalt von Georg Max Hüffner alias "Dutch" geschrieben wurde. Neben Gedichten und Lyrik sind darin Briefe an seine nächsten Angehörigen und Freunde enthalten, die einen Blick werfen auf die vielschichtige Gedankenwelt, die sich in "Dutch" entwickelte in seinem Käfig. Wenn man ihm zwar die körperliche Freiheit nehmen konnte, so hat seine gedankliche Freiheit ihn nie verlassen und in Träumen und Erinnerungen war er oftmals freier, als mancher Mensch, der in einer vermeindlichen Freiheit sich nicht in der Lage befindet, Zuflucht zu solch einer Weite des Geistes zu nehmen. Als "bunter Vogel" hat er einiges zu berichten, was das Leben und tiefe Einsichten über den Wert von Freundschaft und Liebe betreffen und er amüsiert den Leser mit seinem einfaltsreichen und feingeistigen Witz und einer frischen persönlichen Note, die diesem Werk seinen unnachahmlichen Charakter gibt... Results of a questionnaire returned by 375 wildlife and agricultural specialists and grape growers throughout the United States indicated that bird damage to grapes was at least \$4.4 million in 1972. The loss in California alone was probably more than 3.7 million. Grapes of various varieties were grown on over 645,600 acres in 13 States. California contained about 85% of the total U.S. acreage and accounted for about 90% of the total U.S. production. Respondents reported that bird damage was generally a serious problem in one State, a moderated problem in three States, a slight to moderate problem in seven States, and a slight problem in two States. Starlings (*Sturnus vulgaris*), sparrows (species undetermined), and finches (*Carpodacus* spp.) were the most important damaging species, but robins (*Turdus migratorius*), bluebirds (*Silia* spp.), and waxwings (*Bombycilla* spp.) were locally important. Exploders, shooting, electronic sound devices, trapping, and various poisons were listed as the most effective and frequently-used control methods, however, most respondents felt that available control methods are inadequate.

I try to see him among a migrating flock--he will take the loneliness of my room on his long journey; each whistling note he makes will be a little of my sadness falling over the ocean, to be swallowed in the clash of waves and the commotion of many birds flying. "Tell me the truth," demands fifteen-year-old Megumi Shimizu as her mother hurriedly packs. But her mother refuses to admit that she is leaving forever--leaving her husband to his mistress, her home to her silent, resentful mother-in-law, her daughter to survive, if she can. Angry at everyone's polite lies, Megumi realizes that she has a secret of her own: Even though she goes to church, to Bible study class, and to the Christian Girls' Academy, she no longer believes in God. Only Dr. Mizutani, the "spinster lady" veterinarian, tells the truth, and she warns that single birds without their mothers often die. In *One Bird*, a coming-of-age novel about mothers and daughters, about best friends, boyfriends, and families, Kyoko Mori uses folktales, images of birds, and details of bird life to explore the bonds of love that go deeper than lies. As Megumi learns how to care for injured waxwings, crows, sparrows, and one abandoned grosbeak, she begins her own flight toward truth, and toward home.

[?] John Lennon neu entdecken in überraschenden Songzeilen. [?] John Lennon wiederentdecken in hellsichtigen Gesprächen. Zitate aus über 130 Interviews mit John Lennon, über 80 Zitate aus John Lennons Solo-Songs und etwa ebenso viele aus seiner Zeit mit den Beatles bilden den Kern des Buches. Jedes Lied, das der berühmteste Sohn Liverpools federführend schrieb, wird hier genannt und eine besondere Passage daraus zitiert. Hinzu kommen über 100 Aussagen John Lennons zwischen 1957 und 1980. Die chronologische Gliederung der Songs wird durch thematisch passende Äußerungen Lennons ergänzt. Kommentare und neue Recherchen des Herausgebers ordnen Liedzeilen und Interviews in die Schaffensperioden des Rockstars ein. So entsteht ein nie dagewesenes (Selbst-) Portrait des Musikers, Künstlers und Friedensaktivisten John Lennon. Dabei wird deutlich, wie sehr sich John Lennon im Lauf der Jahrzehnte entwickelt und verändert und dass ein abschließendes Bild und Urteil nicht möglich ist. Im Gegenteil, es stellen sich neue Fragen: Woher hat John Lennon den Toppermost-Poppermost-Spruch? Was hat John Lennon mit Khalil Gibran, Allen Saunders oder Fernando Tavares Sabino gemeinsam? Das Buch geht auch den Ursprüngen vieler Lennon-Zitate nach. [?] Mit Quellenangabe für jedes Zitat von John Lennon. [?] Mit der Transkription des schockierenden Audio Tagebuchs von 1979. [?] Mit neuen Erkenntnissen zum Toppermost-Poppermost-Spruch. [?] Mit Informationen zum Savile Row Tape, das 2019

weltweit für Schlagzeilen sorgte. Mit wenig beachteten Versen aus selten gespielten Songs. Mit Raritäten aus den oft stundenlangen Interviews. Mit Zitaten von Freunden und Weggefährten über John Lennon. Mit einer Analyse zweifelhafter und definitiv falscher Lennon-Zitate. Mit einer umfassenden Bibliographie für eine weiterführende Lektüre. Und mit „Enze cusum dedei stobodai tscho ...“, John Lennons Indien-Kauderwelsch im Gespräch mit Kenny Everett im Juni 1968, das hier erstmals „ins Deutsche“ transkribiert wird. Mit der Neudatierung des Satzes „All we're saying is give peace a chance“: Der Songtitel fällt bereits bei der Bagism-Pressekonferenz im Hotel Sacher in Wien am 31. März 1969 und nicht erst - wie oft kolportiert - beim Bed-In in Montreal Ende Mai 1969. Mit dem Song John Lennons, den Frank Sinatra singen sollte. Mit vielen weiteren überraschenden Fakten und Extras. Und mit sehr vielen Texten, die bisher nie in Buchform erschienen sind. Könnte John Lennon heute eine Autobiographie schreiben, wäre dies möglicherweise ihre Essenz. "I like ‚Across the Universe‘: It's one of the best lyrics I've written. The ones I like are the ones that stand as words, without melody. They don't have to have any melody, like a poem, you can read them." John Lennon, 1970 Das große Lennon Lesebuch, herausgegeben vom Verfasser der Biographien über John Lennon („Eine Neudeutung“ Tagesspiegel), über Yoko Ono („Vielleicht das erste große und komplexe Werk, das Yoko Ono gerecht wird“, mdr) und über Ringo Starr („Auch die bekannten Jahre hat Bardola mit überraschenden Anekdoten gespickt“, Deutschlandradio). Nicola Bardola, geboren 1959 in Zürich, studierte Germanistik und lebt seit 40 Jahren in und um München. Bekannt wurde er durch den Roman „Schlemm“ und durch die Biographien über Yoko Ono und John Lennon. Zuletzt erschienen „Elena Ferrante – meine geniale Autorin“ (Reclam) und „Ringo Starr – Die Biographie“ (Edition Olms).

With a few sorry exceptions, it's heartening to think that the gardener or bird-spotter of the 1950s or 60s would immediately recognise most of the songs that sing out over English gardens today. For the amateur ornithologist of the twenty first century, Teach Yourself Bird Watching will be as much of a delight now as it ever was - a beautifully written, precise guide to identifying, protecting and encouraging birdlife in your garden and beyond. Since 1938, millions of people have learned to do the things they love with Teach Yourself. Welcome to the how-to guides that changed the modern world.

Winter-weary people everywhere rejoice when they finally spy robins, an early sign of spring. These cheery birds can be seen hopping on lawns, tugging worms out of the ground. This delightful account of a young bird watcher's discoveries about robins will both entertain and educate future ornithologists about the robin's habitat, nest-making behaviors, migratory habits, and other adaptations. Beautifully designed, this volume enthusiastically promotes the hobby of bird-watching.
