Blackstone's Handbook for Policing Students 2022 reflects the multitude of avenues into policing now open to future police officers, from pre-join degree courses and degree apprenticeships to progression from serving as a Special or working as a PCSO.

In den letzten Jahrzehnten lässt sich ein härteres Durchgreifen der Polizei, eine Verschärfung des Strafrechts und ein teils massiver Anstieg der Gefangenenzahl in allen liberalen Demokratien beobachten. Ein neuer Wille zum Strafen greift um sich, wie Didier Fassin in seinem brisanten Buch nachweist. Um dieses Moment des Strafens zu verstehen, geht Fassin drei zentralen Fragen nach: Was ist Strafen? Warum strafen wir? Und wen bestrafen wir? Anhand zahlreicher Fallbeispiele vergleicht er die faktische Praxis des Strafens mit klassischen Theorien des liberalen Rechtsstaats und zieht historische sowie ethnologische Forschungen zu anderen Kulturen des Strafens heran. Es zeigt sich: Die realen Strafpraktiken weichen stark von den liberalen Idealvorstellungen ab. Sie geben den Blick frei auf einen hochgradig ungerechten und diskriminierenden Repressionsapparat, der die dunkle Seite der gegenwärtigen neoliberalen Gesellschaften bildet, mit deren Siegeszug er zeitlich und geographisch korreliert. Ein auf ethnographischer Forschung sowie theoretischen Einsichten basierendes und zugleich in seinen Fallgeschichten erschütterndes Buch.

This collection presents a diverse set of case studies and theoretical reflections on how criminologists engage with practitioners and policy makers while undertaking research. The contributions to this volume highlight both the challenges and opportunities associated with doing criminological research in a reflexive and collaborative manner. They further examine the ethical and practical implications of the ‘impact’ agenda in the higher education sector with respect to the production and the dissemination of criminological knowledge. Developed to serve as an internationally accessible reference volume for scholars, practitioners and postgraduate criminology students, this book responds to the awareness that criminology as a discipline increasingly encompasses not only the study of crime, but also the agencies, process and structures that regulate it. Key questions include: How can criminal justice policy be studied as part of the field of criminology? How do we account for our own roles as researchers who are a part of the policy process? What factors and dynamics influence, hinder and facilitate ‘good policy’?

This practical guide to developing leadership skills in policing examines the qualities that make up a good leader, providing a variety of examples of good leadership approaches in various policing contexts. Police organizations are increasingly recognizing the role of leadership at every level of the police hierarchy; with police officers involving themselves with partnership work, attending and facilitating public meetings and heading neighborhood policing teams, as well as their more traditional police work. This book aims to enhance leadership skills in policing and ensure officers carry out their duties as effectively as possible. It outlines the theory and concepts of leadership and applies them to police management structures, offering advice on a wide range of issues. These issues include leading teams, motivating others, dealing with disputes, problem-solving, participating in meetings and ethical leadership. All explanations are supported by exercises, examples of both good and bad leadership approaches, flow charts, useful websites and suggested further reading. The first practical guide to tackle leadership aimed at uniformed officers, this title is an essential purchase for anyone within the police service who has responsibility for leading at the front line of the police service. The book forms part of the Blackstone's Practical Policing Series. The series, aimed at junior to middle ranking officers, consists of practical guides containing clear and detailed explanations of the relevant legislation and practice, accompanied by case studies, illustrative diagrams and useful checklists.

Blackstone's Student Police Officer Workbook 2010 presents a structured series of practical scenarios and exercises, designed to complement Blackstone's Student Police Officer Handbook 2010. By tackling controversial and challenging areas facing every student police officer, the authors provide a practically-based context to help improve students' understanding of the legislative and procedural content covered in the Handbook. An initial 'knowledge check' allows students to identify gaps in their knowledge, whilst the subsequent questions and answers relating to the events of the scenario demonstrate both the complex and indistinct nature of police decision making. Finishing at the point where the police officers are likely to complete their shifts, each scenario concludes with a section explaining the expected long-term outcomes. Many of the Initial Police Learning and Development Programme (IPLDP) key themes are covered over the eight chapters, including communication skills, upholding human rights, forensic awareness, use of criminal intelligence, arrest and detention, and reporting and record keeping. These themes are explored through realistic scenarios, from drink and drug driving to shoplifting and internet sexual grooming, and are steeped in the authors' own operational experience of policing. The scenarios are structured to enable the reader first to understand fully the context of the incident and then to respond to questions set within the text. The Workbook also uses other features to test understanding such as multiple choice questions and 'gapped' statements.
