Excerpt from Capital Punishment: The Importance of Its Abolition, a Prize Essay The Roman who uttered the well-known sentiment, "I am a man, and feel a concern in every thing that relates to mankind," has been commended by succeeding generations. The writer trusts that the motives which have led to the discussion of the subject of Capital Punishment are of a philanthropic character. The importance of the subject is self-evident, affecting, as it does, the social and political, the temporal and eternal interests of individuals and families, communities and empires. Yet it must be acknowledged, neither the philanthropist nor the christian, neither the legislator nor the divine, until within the last few years, has given the subject that grave and anxious consideration which it merits. A Paper Upon the Law of Capital Punishment

Seminar paper from the year 2013 in the subject English Language and Literature Studies - Literature, grade: 2,3, University of Cologne, course: Human Rights, language: English, abstract: „Everyone has the right to life, liberty and security of person.“ (The Universal Declaration of Human Rights, Article 3). Nowadays, practices such as ritual sacrifice, slavery, physical torture and death penalty can no longer be tolerated (Dieter: 1). The Human Rights Declaration bespeaks that human rights are universal and made for everyone. However, there are nations that do not respect that and still use death penalty as a form of punishment. According to the Amnesty International organization about 97 states all over the world have abolished death penalty, eight states do not use death penalty for ordinary crimes anymore but for special crimes like war crimes or offence against military justice. Furthermore, 35 states have abolished death penalty in practice but not in their constitution and 58 states still use death penalty, including the USA (Amnesty International, “Hinrichtungen und Todesurteile 2011”). Death penalty is still a controversial topic, which intervenes in human rights, namely “the right to life, liberty and security of person” (The Universal Declaration of Human Rights, Article 3). Due to that, this term paper will deal with the question if death penalty can be justified and if people can sentence other people to death regarding article three of the Universal Declaration of Human Rights mentioned above and if human rights are universal actually. Firstly, the history of the U.S. death penalty and its development will be stated. Secondly, potential advantages as well as disadvantages of death penalty will be pointed out and if necessary the disputable issues of it will be discussed. Regarding the results of this term paper a brief conclusion will follow, answering the question if death penalty can be justified or not.

Abstract:Capital

punishment has served a unique function in the American penal system, and its 400-year history in the United States has been surrounded by controversy. While the death penalty has a complicated history of influence, including religious norms, social sentiments, and political fervor, its exercise has often fallen to the will of the people. Activism on both sides, coupled with the normal political processes that influence this contentious facet of criminal justice, has led to a nationwide struggle over the continuation and methods used to carry out capital punishment. In the absence of a constitutional provision regarding the death penalty, debate has and continues to revolve around how and if this form of punishment will continue to be employed by the United States. This paper explores the relationship between the people and the death penalty, as well as the general history of capital punishment and the arguments posed by both sides of the debate.

**Built on in-depth interviews with movement leaders and the records of key abolitionist organizations, this work traces the struggle against capital punishment in the United States since 1972. Haines reviews the legal battles that led to the short-lived suspension of the death penalty and examines the subsequent conservative turn in the courts that has forced death penalty opponents to rely less on litigation strategies and more on political action. Employing social movement theory, he diagnoses the causes of the anti-death penalty movement's inability to mobilize widespread opposition to executions, and he makes pointed recommendations for improving its effectiveness. For this edition Haines has included a new Afterword in which he summarizes developments in the movement since 1994.**
