Considering the support behind Brexit and Donald Trump's 'America first' policies, this book challenges the idea that they are motivated solely by fear and instead looks at the hope and promises that drive these renewed forms of nationalism. Addressing these neglected motivations within contemporary populism, Michael Mack explores how our current sense of disappointment with the economic and political state of affairs partakes of a history of failed promises that goes back to the inception of modernity; namely, to Spinoza's radical enlightenment of diversity and equality. Through this innovative approach, Spinoza emerges less as a single isolated figure and more as a sign for an intellectual constellation of thinkers and writers who – from the romantics to contemporary theory and literature – have introduced various shifts in the way we see humanity as being limited and prone to disappointment. Combining intellectual history with literary and scientific theory, the book traces the collapse of traditional values and orders from Spinoza to Nietzsche and then to the literary modernism of Joseph Conrad and postmodernism of Philip Roth and Thomas Pynchon.

XKit Literature Series: FET Great Gatsby

To generate opportunities for transformative learning, educators must create learning environments that help students feel safe and encourage them to grapple with potentially difficult material. The trigger warning, a brief statement information students of potential distressing or re-traumatizing content, has been offered as a way to do just that, but this practice is neither as effective nor as equitable as it may seem. Intentionally or indirectly, the trigger warning limits the extent to which students are encouraged to engage in transformative critical conversations and reinforces the culture of silence that prevails in many educational spaces. Emerging as a response to trauma amid an educational environment that professes student-responsiveness and celebrates diversity yet perpetuates the marginalization of many of the bodies in the classroom, the trigger warning is not the problem – but it is not the solution either. What does this mean for the faculty members teaching this new generation of college students? And the teachers who find this generation's younger siblings in their high school classrooms? Drawing upon original research, Mara Lee Grayson tracks the rise of the trigger warning within historical and contemporary educational contexts, explores its potentialities, limitations, and abuses as praxis; and offers curricular suggestions for high school and college instructors seeking to implement equitable, antiracist pedagogies that simultaneously encourage students' well-being, provoke intellectual and emotional growth, and challenge the cultures of silence that maintain inequity on school campuses.

Later chapters on film industries and on film consumption – where and how we watch movies – assess the discipline's recent geographical 'turn'. The book references many film cultures, including Hollywood, Bollywood and contemporary Hong Kong. Case studies cover such topics as sound in The Great Gatsby and narrative in Inception. The superhero movie is studied; so too is Jennifer Lawrence. Beginning film studies is also interactive, with readers enabled throughout to reflect critically upon the field.

The Great Gatsby (F. Scott Fitzgerald)

Fitzgerald's The Great Gatsby

Critically examines the novel, covering characters, images, metaphors, themes, critical summary, adaptations, and symbolism.

The Lost Generation: The Sun Also Rises and A Farewell to Arms by Ernest Hemingway, The Great Gatsby by Francis Scott Fitzgerald, Death of a Hero by Richard Aldington, Under Fire: The Story of a Squad by Henri Barbusse. After the First World War, special people returned to their home towns from the front. When the war began, they were still boys, but duty forced them to defend the homeland. "Lost Generation" – as they were called. This concept is used today when we talk about writers who worked during the breaks between the First and Second World Wars, which became a test for all of humanity and were almost all beaten out of their usual, peaceful rut. One of the themes that commonly appears in the authors' works is decadence and the frivolous lifestyle of the wealthy. Writers of the lost generation raise in their works the problem of young people who returned from the war and did not find their home, their relatives. Questions about how to live, how to remain human, how to learn to enjoy life again – this is what is paramount in this literary movement. Table of Contents: 1. Ernest Hemingway: A Farewell to Arms 2. The Common Core State Standards initiated major changes for language arts teachers, particularly the emphasis on "informational text." Language arts teachers were asked to shift attention toward informational texts without taking away from the teaching of literature. Teachers, however, need to incorporate nonfiction in ways that enhance rather than take away from their teaching of literature. The Using Informational Text series is designed to help. In this fourth volume (Volume 1: Using Informational Text to Teach To Kill a Mockingbird; Volume 2: Using Informational Text to Teach A Raisin in the Sun; Volume 3: Connecting Across Disciplines: Collaborating with Informational Text), we offer challenging and engaging readings to enhance your teaching of Gatsby. Texts from a wide range of genres (a TED Talk, federal legislation, economic policy material, newspaper articles, and 1920s political writing) and on a variety of topics (income inequality, nativism and immigration, anti-Semitism, the relationship between wealth and cheating, the Black Sox scandal and newspaper coverage, and prohibition) help students answer essential questions about F. Scott Fitzgerald's

novel. Each informational text is part of a student-friendly unit, with media links, reading strategies, vocabulary, discussion, and writing activities, and out-of-the-box class activities.

Today's multimedia, multimodal world necessitates literacy instruction that includes a variety of text forms (such as film, print, music, Internet, photographs). Strop and Carlson provide all types of learners with the lifelong tools they need to explore and interpret texts. This book will help teachers and students reach beyond printed texts to expand perspectives, understand different text forms and genres, make intertextual connections, and transcend strategy-based instruction. Multimedia Text Sets includes: –ideas for explicit teaching of how to read different forms and genres of texts. –real stories, which demonstrate the power of multiple literacies, from three teachers who incorporate multimedia text sets in their classrooms. –engaging ideas for instruction you can use to help develop your own students' reading/writing practices with a variety of text forms. –practical suggestions on how to create your own multimedia text sets. Inquiry Paths to Literacy Learning, a collection of chapters from secondary teachers and university researchers, offers English language arts teachers several models and considerations for how to design and implement inquiry-based teaching and learning. As the contributors demonstrate, an inquiry approach can significantly boost student achievement, understanding, and transfer of learning. The chapters in this collection present classroom-tested approaches, activities, and assignments that teachers can use right away, but that also serve as models for designing learning experiences that most engage and benefit learners. Focusing on issues that adolescents find consequential, the sample learning activities promote the development of complex literacy skills, engage students in evidence-based reasoning, and foster an environment of cooperation, collaboration, and respect for different points of view. Together, the contributions in this book envision the English language arts classroom as a supportive environment for authentic inquiry and for the genuine democratic processes involved in grappling together with tough perennial and contemporary issues.
