To understand a business, you have to understand the financial insides of a business organization. Through a focus on accounting transactions, real-world problem-solving, and engaging industry examples, Weygandt Financial Accounting, 11th edition demonstrates how accounting is an exciting field of study and helps connect core financial accounting concepts to students' everyday lives and future careers. Continuing to help students succeed in their introductory financial accounting course for over two decades, this edition brings together the trusted Weygandt, Kimmel, and Kieso reputation with fresh, timely, and accurate updates to help build confidence and engage today's students. Expanded and revised edition of the first book devoted solely to black fraternity hazing. Are black men naturally violent? Do they define manhood in the same way as their counterparts across lines of race? Are

black Greek-letter fraternities among the most dangerous student organizations on American college and university campuses? Can their often-dangerous initiation processes be stopped or even modified and, if not, what should be done about them? In this second edition of Black Haze, Ricky L. Jones takes on these questions and more. The first edition was an enlightening and sometimes disturbing examination of American men's quest for acceptance, comfort, reaffirmation, and manhood in a world where their footing is often unstable. In this new edition Jones not only provides masterful philosophical and ethical analyses but he also forces the engagement of a terrifying real world process that damages and kills students with all too frequent regularity. With a revealing new preface and stunning afterword, Jones immerses the reader in an intriguing and dark world marked by hypermasculinity, unapologetic brutality, and sometimes death. He offers a compelling book that ranges well beyond the subject of hazing—one that yields perplexing questions and

demands difficult choices as we move forward in addressing issues surrounding fraternities, violent hazing, black men, and American society. "Black Haze is a landmark study on hazing culture within black Greek-letter organizations. With an insider's eye and scholar's touch, Jones masterfully captures the emic contours, complexities, and contradictions of black fraternity hazing as ritual act and cultural practice. This text is at once rigorous and accessible, theoretical and practical, classic and urgent. Anyone interested in understanding hazing, masculinity, BGLOs, or black cultural practice must read this book!" – Marc Lamont Hill, coauthor of The Classroom and the Cell: Conversations on Black Life in America "Black Haze is a compelling survey of black Greek-letter organizations, their history, purpose, and their most damning traditions. This is an examination of how the virtues of brotherhood and civic service coexist with brutal violence and cruelty within some of the oldest organizations in black America. Professor Jones has

produced a vital contribution about a crucial and enduring problem.” – William Jelani Cobb, author of The Substance of Hope: Barack Obama and the Paradox of Progress “Ricky Jones’s Black Haze is an important study of black male identity development. By examining black men’s relationship with fraternities, he uncovers larger and brilliantly penetrating insights into issues of masculinity and political identity among African American males in the post-civil rights era.” – Peniel E. Joseph, author of Waiting ‘Til the Midnight Hour: A Narrative History of Black Power in America “Black Haze is a riveting coup de grâce against ritualized violence in black fraternities. The second edition of Black Haze is the most penetrating, illuminating, and articulate sociopolitical and cultural analysis of the chilling legacy of violence in black Greek-letter fraternities. As one of the world’s leading authorities on black masculinity and organizations, Ricky Jones intelligently confronts traditional verities, social norms, and myths that seek to justify and continue

ritualized violence in black fraternities through the courageous prism of a reformed insider dedicated to the preservation of black dignity and life.” – Jeremy I. Levitt, author of Black Women and International Law: Deliberate Interactions, Movements and Actions Praise for the First Edition

“...provides valuable insights into the reasoning behind hazing, a practice that extends into the realms of sports and even high school, and is relevant for not only fraternity members and officials, but the general public as well.” – The Griot “...an important contribution ... because of the skillful manner in which Jones incorporates and critically analyzes relevant literature and other related scholarly writings ... Jones, himself a member of Kappa Alpha Psi, offers personal observations as well as first-hand views and perceptions of hazing.” – Journal of College Student Development

☐ Entering the 1978-1979 season, the Boston Bruins had been one of the best teams in the National Hockey League for more than a decade. Yet they could not shake the postseason jinx the Montreal

Canadiens held over them—the Habs had ousted them in 13 consecutive playoff series going back to 1940s. The Bruins wanted one more shot at their nemeses, after coming up short in both the 1977 and 1978 Stanley Cup finals. They got their chance in the semifinal round. Led by the colorful but embattled coach Don Cherry, the underdog Bruins played seven heart-stopping games. Victory seemed within their grasp but was snatched away with an untimely penalty in the final minutes of game seven. The author looks back at the season from opening night at Boston Garden to the catastrophic conclusion at the Montreal Forum, with detailed accounts of the semifinal games and a post-mortem of the infamous bench penalty.

Renaissance Lawman: The Education and Deeds of Eliot H. Lombard details the life, education, and public service career of Eliot Howland Lombard. A lawyer, who most of his life, lived and worked in Manhattan and whose legal career spanned more than fifty years beginning in the early 1950s. Lombard is easily identified as a renaissance lawman for having gained considerable expertise in the operations of the political and justice systems, and for proceeding to capitalize on this knowledge to become both an advocate and initiator of progressive reforms for criminal justice. His contributions on behalf of public safety have been largely forgotten but throughout this intriguing biography Martin Alan Greenberg successfully juxtaposes many of Lombard's professional activities with many of the major historical developments and challenges of his time. The chronicled events emphasize what motivated the people in his generation to behave as they did since the world today is a much different place than what Americans were experiencing in the first three decades after WW II. Cultural and technological changes have combined to make our present-day world quite different from over a half-century ago. Renaissance Lawman proves to

be especially rewarding to a wide-range of readers interested in police work, criminal justice history, public service leadership, and legal ethics. There are no other comparable books on the market. Lombard certainly had a unique legal career and his impactful contributions have seldom, if ever, been duplicated – even if his contributions, on behalf of public safety, have been largely forgotten.

Present Imperfect asks how South African writers have responded to the end of apartheid, to the hopes that attended the birth of the 'new' nation in 1994, and to the inevitable disappointments that have followed. The first full-length study of affect in South Africa's literature, it understands 'disappointment' both as a description of bad feeling and as naming a missed appointment with all that was promised by the anti-colonial and anti-apartheid Struggle (a dis-appointment). Attending to contemporary writers' treatment of temporality, genre, and form, it considers a range of negative feelings that are also experiences of temporal disjuncture-including stasis, impasse, boredom, disaffection, and nostalgia. Present Imperfect offers close readings of work by a range of writers - some known to

international Anglophone readers including J.M. Coetzee, Nadine Gordimer, Ivan Vladislavic, and Zoë Wicomb, some slightly less well-known including Afrikaans-language novelists Marlene van Niekerk and Ingrid Winterbach, and others from a new generation including Songeziwe Mahlangu and Masande Ntshanga. It addresses key questions in South African studies about the evolving character of the historical period in which the country now finds itself. It is also alert to wider critical and theoretical conversations, looking outward to make a case for the place of South African writing in global conversations, and mobilizing readings of writing marked in various ways as 'South African' in order to complicate the contours of World Literature as category, discipline, and pedagogy. It is thus also a book about the discontents of neoliberalism, the political energies of reading, and the fates of literature in our troubled present.

February, 1940: After a decade of worldwide depression, World War II had begun in Europe and Asia. With Germany on the march, and Japan at war with China, the global crisis was in a crescendo. America's top songwriter, Irving Berlin, had captured the nation's mood a little more than a year before with his patriotic hymn, "God Bless America." Woody Guthrie was having none of it. Near-starving and penniless, he was traveling from Texas to New York to make a new start. As he eked his way across the country by bus and by thumb, he couldn't avoid Berlin's song. Some people say that it was when he was freezing by the side of the road in a Pennsylvania snowstorm that he conceived of a rebuttal. It would encompass the dark realities of the Dust Bowl and Great Depression, and it would begin with the lines: "This land is your land, this land is my land." In *This Land That I Love*, John Shaw writes the dual biography of these beloved American songs. Examining the lives of their authors, he finds that Guthrie and Berlin had more in common than either could have guessed. Though Guthrie's image was defined by train-hopping, Irving Berlin had also risen from homelessness, having worked his way up from the streets of New York. At the same time, *This Land That I Love* sheds new light on our patriotic musical heritage, from "Yankee Doodle" and "The Star-Spangled Banner" to

Martin Luther King's recitation from "My Country 'Tis of Thee" on the steps of the Lincoln Memorial in August 1963. Delving into the deeper history of war songs, minstrelsy, ragtime, country music, folk music, and African American spirituals, Shaw unearths a rich vein of half-forgotten musical traditions. With the aid of archival research, he uncovers new details about the songs, including a never-before-printed verse for "This Land Is Your Land." The result is a fascinating narrative that refracts and re-envision America's tumultuous history through the prism of two unforgettable anthems.

Criminal justice is centrally concerned with what people deserve--with the rights a defendant can properly claim when charged with a crime, with the punishment a judge should impose for wrongdoing, and with the scope of discretion officials may exercise when enforcing the law. Dimensions of Justice: Ethical Issues in the Administration of Criminal Law is the only textbook of its kind that addresses these questions of justice from an institutional perspective. Thought-provoking features, including Thought

Experiments boxes that present imagined scenarios to illustrate the principles under discussion and Justice in Context boxes that consider the real-life applications of concepts, along with clearly presented learning objectives, create a strong foundation in key concepts, pertinent vocabulary, and critical-thinking and reasoning skills. Readers are introduced to moral reasoning and the underpinnings of philosophical approaches to justice, including readings from critical philosophers such as Aristotle, Augustine, Locke, Kant, and Rawls. Accessible but rigorous, Dimensions of Justice: Ethical Issues in the Administration of Criminal Law provides a unique and innovative approach that challenges students to develop a new analytical framework for thinking about the criminal justice system.

Victims of the Book shows how the adolescent male reader became a subject of grave social concern in late-nineteenth-century France and how a new generation of writers later reworked the novel to subvert cultural norms about masculinity.

Be a more effective leader with strategic thinking Leading with Strategic Thinking reveals what effective leaders do differently. Eschewing the one-size-fits-all leadership model, this helpful guide outlines four general leadership types and demonstrates how each type achieves success - whether through personal vision, structured process, collaboration, or by empowering others. The authors identify the actions and skills that distinguish strategic leadership, drawn from interviews and focus groups with over three hundred leaders from around the world. Examples and case studies illustrate

these concepts in action, and the provided reference materials steer readers toward more advanced information on this important topic. The disruptive forces of technology and globalization raise new challenges for leaders. This book is a manual that will help executives and aspiring leaders harness these forces and address the two central questions of strategic leadership: How do the best leaders develop their strategy? How do effective leaders drive strategic change? Becoming a strategic leader isn't about mimicking an icon. The most effective leaders seize opportunity in a way that consciously integrates environmental requirements, stakeholder expectations, and personal ability. Leading with Strategic Thinking shows what these leaders do, and gives anyone the tools to be a more strategic leader.
