*This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader; his relationships with his own generals and with other great world leaders; his foreign policy; and his role in instigating the Cold War. While frankly*

*exploring the full extent of Stalin's brutalities and their impact on the Soviet people, Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long-term detente with the capitalist world. By means of an integrated military, political, and diplomatic narrative, the author draws a sustained and compelling personal portrait of the Soviet leader.*

*The resulting picture is fascinating and contradictory, and it will inevitably change the way we understand Stalin and his place in history. Roberts depicts a despot who helped save the world for democracy, a personal charmer who disciplined mercilessly, a utopian ideologue who could be a practical realist, and a warlord who undertook the role of architect of post-war peace.*

This study guide explores the origins and reception history of the Book of Revelation and its continuing fascination for readers from both religious and secular backgrounds. Stephen D. Moore examines the transcultural impact Revelation has had, both within and beyond Christianity, not only on imaginings of when and how the world will end, but also on imaginings of the risen Jesus, heaven and hell, Satan, the Antichrist, and even Mary the mother of Jesus. Moore traces Revelation's remarkable reception through the ages, with special

emphasis on its twentieth and twenty-first century appropriations, before resituating the book in its original context of production: Who wrote it, where, when, why, and modelled on what? The study guide culminates with a miniature commentary on the entire text of Revelation, weaving together liberationist, postcolonial, feminist, womanist, queer, and ecological approaches to the book in order to discern what it might mean for contemporary readers and communities concerned with issues of social justice.

phenomenon. The following 29 essays provide a comprehensive study guide in four sections: Part I explicates differing theories as to the origins of war under the general concept of 'polemology'. Part II analyzes significant conflicts from the Peloponnesian wars to World War II. Part III examines the ramifications of Cold War and post-Cold War conflict. Part IV looks at long cycles of systemic conflict, and speculates, in part, whether another global war is theoretically possible, and if so, whether it can be averted. Because enemies and potential situations of fear lurked everywhere, within the home, the government, the family, and the very self, horror films could speak to the invasive fears of the cold war era. I Was a Cold War Monster examines cold war anxieties as they were reflected in British and American films from the fifties through the early sixties. This study examines how cold war horror films combined anxiety over social change with the erotic in such films as Psycho, The Tingler, The Horror of Dracula, and House of Wax.
