about being the naughtiest man in the world and using these naughty, dramatic, crazy, stubborn, etc. techniques to get a woman forever addicted in the relationship and make it last longer. In fact, forever. Do you know a lady (even if she's a 15-year-old virgin) is naughtier than all the men in this world combined? Let me tell you, nothing is naughty in the eyes of a woman. She already knows, but she'll pretend she doesn't to avoid you seeing her as a loose girl. Women love to protect their naughty image until the man sneaks into the naughty side by acting naughtier than them. In real life, a man can never be naughtier than a woman. All he needs to do is to act and pretend

This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the

subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal

growth of social networks, especially Facebook , LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.
