Die Entschlüsselung des Universums ist das größte Abenteuer der Menschheit. Warum sind wir hier? Diese Frage steht hinter dem jahrtausendealten Versuch der Menschen, die Welt, in der wir leben, zu begreifen. Lawrence Krauss, einer der bekanntesten Astrophysiker der Gegenwart, erzählt die Geschichte dieses größten geistigen Abenteuers der Menschheit: Schritt für Schritt zu entschlüsseln, wie das Universum entstanden ist, woraus es besteht, wie es funktioniert und welche Rolle wir darin spielen, kurz, die Entdeckung der verborgenen Welt hinter der wahrnehmbaren Realität im Großen wie im Kleinen. Packend und anschaulich schildert er die Entwicklung der

Back Issue #118

The author of the highly successful History Channel series The Greatest Stories Never Told returns with

new historic tales, this time focusing on amazing music stories that aren't taught in the average classroom Rick Beyer plums the vast archives of the History Channel to deliver a treasure trove of obscure and fascinating stories to delight and entertain. The Greatest Music Stories Never Told continues the series tradition with short, fascinating tales accompanied by an array of stunning and diverse photographs from around the globe. The Greatest Music Stories Never Told illuminates the origins of a fascinating range of music topics, from instruments and styles to composers and technological

advances—all which show us how little we really know. Guaranteed to astonish, bewilder, and stupefy, this all new volume will appeal not only to history buffs but to pop culture audiences and music fans of all ages and stripes.

Als Reinhold Messner 1979 in Kathmandu erfährt, dass der japanische Bergsteiger Naomi Uemura die Erlaubnis erhalten hat, den Mount Everest im Winter 1980/81 im Alleingang zu besteigen, kennt er nur ein Ziel: Er muss ihm zuvorkommen. Seit seinem Alleingang zum 8125 Meter hohen Nanga Parbat weiß Messner, dass auch die Besteigung des

Everest, des mit 8848 Metern höchsten Gipfels der Erde, allein möglich ist. Messner handelt sofort, und es gelingt ihm, eine Expeditionsgenehmigung für die Zeit von Juni bis Ende August 1980 zu bekommen. Schon einmal stand Reinhold Messner auf dem Everest. Das war 1978. Nun wird er ein zweites Mal gehen, wieder ohne künstlichen Sauerstoff, aber diesmal auch ohne Kletterpartner, ohne feste Lagerkette, ohne Träger und über eine neue Route auf der tibetischen Seite. Messners Bericht über die alpinistische Sensation seiner Solobesteigung schildert nicht nur den Kampf ums Überleben

angesichts der gewaltigen Herausforderungen der Natur, wie Monsunstürme, Gletscherspalten und die sauerstoffarme Luft in achttausend Meter Höhe, sondern vor allem auch die Abenteuer der Psyche an den Grenzen menschlicher Belastbarkeit und das mystische Erleben der Einsamkeit in eisiger Natur. I like to tell stories about the Bible with my poetry. I have found it to be a good way for me to share my faith with others. One day when I was praying for a new poem to write, a thought entered my mind to write a poem telling the story of the whole Bible. The whole Bible? That cannot be God, so right away I

dismissed that thought. But it kept coming back to me. Was that really Him? I would ask myself. Unable to get that thought out of my head, I started this journey that would last almost ten years with the hope that I could reach the hearts and minds of those who would never read God's Word, but might read this book. This story will take the readers from Genesis to Revelation, and bring them face-to-face with the heart of God. And His love for us. It has been my most challenging book, but also my most rewarding and exciting! I began to tell this story at men's rescue mission and my prison ministry. I could see that this

story was landing in the hearts of those listening. It's not my story; it's His story: The Greatest Story Ever Told.

Torah teach? How does the Torah teach? Scholars agree the Bible evolved from an oral tradition to its written form. This book examines the messages of the Book of Genesis, the first book of the Bible, based on what the messages would have sounded like to an audience in the original oral tradition. The episodes of Creation and the 21 separate stories of the iconic figure of Abraham are recast under the microscope of the prevailing Near Eastern context of their birth. The reader is invited to experience the vivid world of antiquity and for the first time hear The Greatest Story Never Told. Sometimes the greatest story ever told never really ge

told... Believers and unbelievers alike see God and his Word through our own lenses, unintentionally filtering truth and seeking out teachers and communities whose image of God resembles our own. As a result, we have had conflict between religions, denominations, and those with opposing views for two millennia about the same story. Comprised of layers of thought, *The Greatest Stories Never Told* invites students of the Bible to lay down what they think they know about God's Word and begin an adventure into the unknown by reading, observing, and looking at what might be to become like children again and experience the great story of the gospel with new

eyes. Taking this posture toward Scripture, Daniel gives specific tools on how to read (and reread) the Bible through the lens of shifting cultural values, language characteristics, elements of story, patterns of thought driving national narratives of the biblical authors. Christians will be challenged to rethink long-held suppositions, and to better understand the unfolding revelation God offers, bringing us to intellectually hone theological positions.

The story of Jesus is well-known worldwide. But have you ever wondered if it is the true and complete story of the Savior? Could there be more to the Son of God? Author Audrey Carr addresses those questions in *The Greatest Story Never Told: An Advanced Understanding of Christianity*. She not only presents the real story of Jesus, in which he did not die on the cross, but also includes his unitary gospel of “oneness with God” that traditional Christianity has missed. Quoting from highly documented, scholarly works, this story of Jesus incorporates Judaism, Christianity, Hinduism, Buddhism, and Taoism. With details and maps of his many years in India, Carr provides a photograph of his real tomb in Kashmir. Carr also offers

information about meditation techniques he practiced, for Jesus was not a Christian but a Hindu-Buddha! “The Kingdom of Heaven” was his term for Enlightened Consciousness. Unlike other scholarly books, The Greatest Story Never Told is intended for the everyday person. Readers will come away with a new, meaningful, life-changing understanding of Jesus and his teachings. Carr seeks to destroy what is false and resuscitate the real truth, beyond all myths, and she reveals the connections between major religions. Spiritually uplifting and challenging, The Greatest Story Never Told is for anyone who is ready for an advanced understanding of Jesus and all the other God-men of the ages who have realized their divine identity.

God raises up Methodists for such a time as this. Here is a ditty Len Sweet’s Methodist grandfather used to sing: A Methodist, a

Methodist will I be A Methodist will I die. I've been baptized in the Methodist way And I'll live on the Methodist side. What "genius" of Methodism inspired this kind of love and loyalty in the earlier years of the faith? What did it mean to live in "the Methodist way" and to die on "the Methodist side?" Perhaps it is time to resurrect a neo-Wesleyan identity and to challenge the prevailing "one-calorie Methodism" that characterizes so much of our tribe today. What makes a Methodist? How can we reignite the spark of genius that motivated such commitment in our cloud of witnesses? The essence of Methodism's genius resides in two famous Wesleyan mantras: "heart strangely warmed" (inward experiences with a fire in the heart) and "the world is our parish" (outward experiences with waterfalls of cutting-edge intelligence). For Wesley, internal combustion, the

former, led to external combustion, the latter. In the 18th century, Methodists in general (and in their younger years, the Wesley brothers themselves) were accused of being too “sexy.” What else could all those “love feasts” and “strangely warmed hearts” be about? Why else were all those women in positions of leadership? With this book the author hopes to bring back to life some of Methodism’s sexiness so that our current reproduction crisis can be reversed.

“What we call imagination is actually the universal library of what’s real. You couldn’t imagine it if it weren’t real somewhere, sometime.” – Terence McKenna Scientific theories that were once considered right and mighty were later proven wrong. This is the case even with the best and most thorough scrutiny and investigation. There is no knowing when a better

scientific theory will come to replace the old. It is clear that the study of Sumerian clay tablets will continue to interest areas of science, history, archaeology, cosmology, and more, due to its continued “effect” of encompassing studies from unrelated fields. The Sumerians were the most extraordinary people who ever lived on the face of the earth. They seemed to come from out of nowhere, and they single-handedly invented civilization when most of the rest of the world was still living in the Stone Age. What’s more, they did it thousands of years before anyone else. The Sumerian civilization was already ancient when it ended in 2004 B.C., twenty centuries before Julius Caesar, sixteen centuries before Socrates, and seven centuries before Tutankhamen.

Science-Fiction Romance Before the Devinci Code, Before Jesus, was the story of Adam & Eve. In the beginning God created the Heavens and the Earth. This may be true but did God first create man on Earth? I don't think so. Earth was colonized by a group of explorers. Through the eyes of an old man the story is told. A more plausible story that explains everything including how man evolved on Earth, how religion really

got started, and how we all came to be. Many of the situations and sub-stories are based on actually fact. Could this be how we really started?
