**Michael Williams has spent the past year travelling along the fascinating rail byways of Britain for this new collection of journeys. Here is the 'train to the end of the world' running for more than four splendid hours through lake, loch and moorland from Inverness to Wick, the most northerly town in Britain. He discovers a perfect country branch line in London's commuterland, and travels on one of the slowest services in the land along the shores of the lovely Dovey estuary to the far west of Wales. He takes the stopping train across the Pennines on a line with so few services that its glorious scenery is a secret known only to the regulars. Here, too, is the Bittern Line in Norfolk and the Tarka Line in North Devon as well as the little branch line to the fishing port of Looe in Cornwall, rescued from closure in the 1960s and now celebrating its 150th anniversary taking families on holiday to the seaside. From the most luxurious and historic - aboard the Orient Express - to the most futuristic - on the driverless trains of London's Docklands Light Railway - here is a unique travel companion celebrating the treasures of our railway heritage from one of Britain's most knowledgeable railway writers.**

**The April 1945 journey of FDR's funeral train became a thousand-mile odyssey, fraught with heartbreak and scandal. As it passed through the night, few of the grieving onlookers gave thought to what might be happening behind the Pullman shades, where women whispered and men tossed back highballs. Inside was a Soviet spy, a newly widowed Eleanor Roosevelt, who had just discovered that her husband's mistress was in the room with him when he died, all the Supreme Court justices, and incoming president Harry S. Truman who was scrambling to learn secrets FDR had never shared with him. Weaving together information from long-forgotten diaries and declassified Secret Service documents, journalist and historian Robert Klara enters the private world on board that famous train. He chronicles the three days during which the country grieved and**

**A quirky, funny, and accessible blend of science and art that delves into the heart of Einstein's theory of relativity It was a link to his 1905 paper--an early attempt at explaining his revolutionary ideas on space, time, and matter--that drew Tanya Bub into Albert Einstein's imaginative vision of the world. What particularly struck her was how Einstein interwove words and math to create clear visuals illustrating his theories. As an artist, she naturally started doodling as she worked her way through his concepts, creating drawings that intuitively demonstrated Einstein's core principles. In Reimagining Time Tanya Bub teams up with her father, the distinguished physicist Jeffrey Bub, to create a quirky and accessible take on one of science's most revolutionary discoveries. Blending original art and text, they guide readers through Einstein's theory of special relativity to expose truths about our universe: time is relative, lengths get shorter with motion, energy and mass are interchangeable, and the Universe has a speed limit.**

**Spies and Saboteurs is the story of the origins of the Anglo-American 'Special Relationship' in human intelligence collection and special operations, which took place amidst the global conflagration that was the Second World War. It is the story of William 'Wild Bill' Donovan - the father of America's Central Intelligence Agency - and of his relationship with legendary British spymasters like William Stephenson, code named 'Intrepid', Stewart Menzies ('C'), chief of the Secret Intelligence Service, Admiral John Godfrey, the powerful and enigmatic director of Naval Intelligence, and General Colin Gubbins, Britain's master saboteur. Relying almost exclusively upon recently declassified OSS and British intelligence documents and survivor interviews, it examines the transatlantic association in espionage and sabotage, guerrilla warfare and disinformation. It explores the evolution of covert relations from a 'tutorial' arrangement with the U.S. as pupil, to an unequal then full partnership, and ultimately to competition and rivalry in the prosecution of the clandestine war.**

"In giving to the public this volume, it had been the design to present the operations of the Bureau of the National Detective Police during the war, so far as it is proper to make them known to the people. It is not a book of romantic adventures, but a narrative of facts in the secret history of the conflict.

Yet there isn't a train goes by all day But I hear its whistle shrieking.... Yet there isn't a train I wouldn't take, No matter where it's going. --Edna St. Vincent Millay, "Travel" "Yet there isn't a train I wouldn't take" is a collection of stories about favorite train journeys by an inveterate railway enthusiast and train traveler. A half century career as an engineer, Naval officer, and university administrator took Bill Middleton to almost every part of the globe, and everywhere he took with him an abiding interest in railways, and a notebook and camera to record his experiences. His North American journeys have included experiences as diverse as the long journey north through Manitoba to polar bear country on Hudson Bay, a trip to Minnesota's Mesabi Range to haul a boatload of iron ore to Lake Superior behind a giant Yellowstone articulated steam locomotive, and the trip between Costa Rica's Atlantic and Pacific coasts by narrow gauge railway. His European travels have ranged from a Pullman seat on the crack London-Paris Golden Arrow to the slow trip across Thrace on one of the last runs of the celebrated Simplon-Orient Express. In Asia he traveled through the Toros Mountains of Turkey on the famous Istanbul-Baghdad Toros Express, experienced modern high-speed railroading in the cab of Japan's Bullet Train, and rode to Asia's highest mountain east of the Himalayas on the little trains of Taiwan's Ali Shan Forestry Railway.

The Last Train to Dachau is based on the real life plight of the Miller family during World War II. With the invasion of Poland by the Germans, the story follows the family and their experiences of: the occupation, hunger, cold, and the terror in their home town. This family of five was Polish Catholic, but had a German-like surname. This situation placed them between the Germans, who wanted them to sign a loyalty declaration, which they refused, and the community which assumed that they had. The story tells of the horrors and obstacles that they faced and had to overcome to stay together and live. Emilia, Alicia and Leszek are children that spend most of their youth surviving both the physical and emotional stresses of war. Wladyslawa, the mother, is a worker in a Red Cross shelter during the day, but often had to travel at night to find black market food for her family. Wiktor, the father, was conscripted to a labor train after the surrender of Warsaw. He worked under threat of great harm to his family while forced to travel and repair damaged trains and tracks across Poland and Germany. His travels and experiences on a recovery and repair crew gave him an avenue to stay alive while still resisting his oppressors. The intensity of the story increases as the Millers face the brutality of their captors who desperately try to accomplish their "final solution" for all Poles in the closing days of the war. The reader will find it hard to put the book down as the Millers face their

fate.

This book provides an in-depth exploration of trains and train travel. Letherby and Reynolds have conducted extensive research with all those concerned with trains, from leisure travelers and enthusiasts to railway workers and commuters. Overturning conventional wisdom, they show that the train has a social life in and of itself and is not simply a way to get from A to B. The book also looks at the depiction of train travel through cultural media, such as music, films, books and art. The authors consider the personal politics of train travel and political discussion surrounding the railways, as well as the relationship trains have to leisure and work. The media often paints a gloomy picture of the railways and there is a general view that the romance of train travel ended with the steam locomotive. Letherby and Reynolds show that this is far from the case.

That's why it works in just one day!

*The year is 1976. Romania is under Communist control. The Second World War has been over for some thirty years. Just not all of it, such as the train leaving Bucharest Station for Western capital cities is noticed by a cell of Marquis, the underground resistance active in France during WWII. Especially the accompanying photograph of one of the train's passengers. The aging fighters that had somehow survived the German occupation make a long awaited move to make positive identification of the passenger in the photograph. They are long in the tooth and long in memory of wartime events that are impossible to dismiss. As the train reaches the Italian border, an American investigator living in a small village just outside Paris finds himself a material witness to murder. The murder proves to be a tripwire that explodes and releases chaos which in turn connects the murder to the train passenger, the French Resistance fighters, and the American and his newly acquired aristocratic clients. As the train moves*

*across Italy and France, the bizarre mix of characters are moved about on the game board of these two countries like chess pieces and play out the "Game" that, just like war, doesn't seem able to find its end. *On Thursday August 8, 1963, fifteen masked men stopped the night train from Glasgow to London and robbed it of £2,500,000 (the equivalent of £41 million today). It was called the crime of the century, and the thieves were relentlessly pursued by Scotland Yard until half the gang were behind bars serving huge prison terms. But the story did not end there. First one, then another escaped in thrilling style and fled abroad, catching the world's imagination and making the Train Robbers into folk heroes. Thirteen years later, the gang combined to tell their story, and Piers Paul Read, author of the bestselling *Alive*, agreed to write it. This is the classic, complete and exclusive story of the twentieth-century's most audacious crime and its even more sensational aftermath.*

"In April 1945, the funeral train carrying the body of Franklin D. Roosevelt embarked on a three-day, thousand-mile odyssey through nine states before reaching the president's home where he was buried. It passed with darkened windows; few gave thought to what might be happening aboard. A

closer look inside the train, however, would reveal a Soviet spy about to leak a state secret, a newly widowed Eleanor Roosevelt, who just found out that her husband's mistress was in the room when he died, and the entire family of incoming President Harry S. Truman. The thrilling story of what took place behind the Pullman shades, where women whispered and men tossed back highballs, has never been told. On the occasion of the sixty-fifth anniversary of FDR's death, Klara chronicles the action-packed three-day train ride during which, among other things, Truman hammered out the policies that would galvanize a country in mourning and win the Second World War"--Provided by publisher.

There has not been a surplus in a President's budget since President Wilson. The Republican President's budgets have always been large deficit spending. The Democratic budgets have always been small deficits compared to the Republican budgets. Democratic "hysteresis" spending for events always brought wealth for all citizens. Clinton's budget brought such wealth that caused "ROAD RAGE, AIR RAGE, ETC."

Their Story

When he realizes he is surrounded by a collusion of people trying to ruin his reputation and destroy him emotionally, he returns to his family and friends for help. To his astonishment, they too had become part of the false life which had been shrouded over him. Anthony flees Canada to begin four years of travel in search of safety and a normal life once again. He battles the secret collusion which follows him to Japan, Italy and China where they riddle his life with difficulty, while he tries to piece together clues to the mystery. In a search for justice he appeals to the Canadian Embassy, The Royal Canadian Mounted Police and The United Nations in China where he finds corruption and cover-ups. The collusion of covert espionage makes an attempt to frame him for illegal activity and threaten him with deportation from China. With the assistance of a reporter and foreign governments he manages to escape communist control to safely return to Canada. In Canada, Anthony speaks with authorities including Canadian Intelligence to see that the iniquity continues, and discovers a Global Surveillance Network which has been secret to the world. This true story is an account of Anthony Brina's incredible events since 1995, which include a threat on his life, a planted suicide note in his residence, and false accusations of a Police search for him. Who is behind this collusion of espionage activity? Is it family or friends, a government, or perhaps corporations are behind this international mystery? Can you determine who is behind it and why they have chosen Anthony as their victim? As you read his story you realize this could happen to you.

The Civil War was the backdrop for the formation of numerous secret service organizations and the theater for a host of

characters involved in espionage from both the North and the South. The pool of spies and scouts comprised diverse individuals, ranging from eager young volunteers signing up for "extra dangerous duty" for their respective armies to society ladies spying for both the Union and the Confederacy. At the turn of the nineteenth century, William Gilmore Beymer went in search of the stories of these first spies and recorded his findings in *Scouts and Spies of the Civil War*. Beymer's endeavor was one of the first attempts to move the study of Civil War scouts and spies away from the realm of "cloak and dagger" romance stories to historical research grounded in factual details. Included in this dynamic collection are personal narratives told to Beymer by a few surviving secret service operatives; stories pieced together from diaries, journals, letters, and archival research; and the remembrances of family and friends that tell of the mothers, daughters, fathers, and sons who risked their lives for their cause.
