

Le Blason Et Le Lys Jade

Baudelaire, Mallarm and Valry, three central poets of the modern French tradition, form a noble poetic lineage: Mallarm proceeded from Baudelaire, Valry from Mallarm; yet each went his separate way and attained a high degree of originality. All three reflected deeply on the principles of poetic creation; all three sought to apply these principles in the practice of writing. The central theme of the eighteen papers collected here is the constant confrontation of theory and practice. The majority are close studies of individual poems, based on rigorous textual analysis, but placing each poem, implicitly or explicitly, in the total context of each poet's work as a whole. The impact of these poets on the development of modern poetry has been felt far beyond the frontiers of France; their writings are at the centre of more recent reflection on literature in genera, and poetry in particular, as the application of certain properties of language. Above all, their poems remain a constant source of delight; to share that delight with the reader is the main object of this book.

"Although Mallarme is commonly viewed as the high priest of the autonomous work of art, by far the bulk of his actual poetic writing was occasional verse. With few exceptions the works written after 1873 manifest a reinvestment in the world subsequent to the metaphysical crises of the 1860's. In addition to the "Tombeaux," the toasts, and certain of the "Eventails," Mallarme composed the Vers de circonstance, more than 450 quatrains and distichs inscribed on envelopes, postcards, calling cards, Easter eggs, small stones, photographs, and jugs of Calvados. This is the first comprehensive reading and analysis of the neglected late poetry, heretofore dismissed as of marginal interest." "This book has a dual purpose. By exploring the occasional verse of Mallarme, which itself thematizes the problematics of the occasion, the author seeks to rehabilitate such writing for critical study. She does this not by proclaiming its high seriousness, but by insisting on its casual, amenable, public nature. Unlike previous critics, who have often apologized for straying into the fringes of the canon, the author delights in the marginal, insisting that in a poetics of the occasion, traditional oppositions such as center/margin become skewed and break down." "The author's second purpose is to come to a better understanding of Mallarme in light of what he actually wrote, rather than the work projected in his correspondence and prose articles, which has claimed so much critical attention. Each of the chapters of the book highlights one aspect of occasional poetry through an investigation of representative texts, both canonical and occasional. The author also discusses the relationship between Mallarme's poetics and the plastic arts, tracing the changing conception of the representation of the monument from the nineteenth to the twentieth century, as well as the correspondences between the more radical aspects of Mallarme's practice of writing and the contemporary arts." "Far more than a study of a single writer, this book is the first to propose a pragmatic definition of occasional literature, to undertake a broad study of the problem of occasion in literature, and to trace the historical trajectory of occasional writing as a specific discourse. The book is illustrated with 27 halftones."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Le blason et le lys

Voyage Archéologique Et Pittoresque Dans Le Département de L'Aube Et Dans L'ancien Diocèse de Troyes

Angleterre, Moyen Âge En ce jour de noces, le ciel était aussi sombre que les sentiments d'Eleanor de Bonville tandis qu'elle pénétrait dans la cathédrale. Perdre sa sœur aînée était déjà en soi une dure épreuve, et voilà qu'elle devait à présent prendre la place de celle-ci devant l'autel. Pourquoi le sort semblait-il ainsi s'acharner sur elle ? À ses côtés, son futur époux, lord Roger de Roche, comte du Wiltshire, semblait aussi en proie à une tension insoutenable. Qui aurait pu l'en blâmer ? Pourtant, dans quelques instants à peine, elle serait l'épouse de cet inconnu, son unique seigneur et maître...

Balzac and Violence

Violence is one of the main themes in the novels of Hanore de Balza. Executions, murders, savagery and death accompany the conspiracies and the turbulence that characterise his post-Revolutionary times, from the terror to Napoleonic campaigns and then to the upheavals of 1830 and 1848. Despite the importance of violence in Balzac, this is the first book-length study of the topic. The book begins by tracing the links between violence and Balzac's approach to the novel, not merely in terms of violent content, but, equally importantly, in terms of the form associated with that content. Form and content combine to perpetuate and naturalise violence and suffering. After charting examples of this combination in one of Balzac's earliest fictions, the book moves on to the links between violence and place (from his native Touraine to sickness in Paris), and between violence and gender/sexuality. It also examines the re-orientation of violence in the form of spoken or written death. Throughout the analysis, the book asks the following question: do Balzac's novels reinforce or counteract the literary text's apparent love-affair with violence?
