This book looks at movements of communities which formed the lower and middle rungs of society in medieval and early colonial India. It presents migration, mobility and memories from a specifically Indian perspective, breaking away from previous Eurocentric studies. The essays in the volume focus on labour, peasant and craft migrations, and in fleshing out the causes and trajectories taken by these communities, they speak to each other by addressing similar issues as well as documenting varying responses to analogous situations. A fascinating history of migrations of people from below, the volume adopts a trans-disciplinary approach and uses inscriptions, official records, and literary texts along with community narratives and folk tradition. This will be of great interest to scholars and students of migration and diaspora studies, medieval and modern South Asian history, social anthropology and subaltern studies.

"Wir vertrauen auf den linearen, ewig gleichförmigen Verlauf der Zeit - bis in die Unendlichkeit. Aber die Unterscheidung zwischen Vergangenheit, Gegenwart und Zukunft ist nichts als eine Illusion."

The English Novel in History 1700-1780 provides students with specific contexts for the early novel in response to a new understanding of eighteenth-century Britain. It traces the social and moral representations of the period in extended readings of the major novelists, as well as evaluating the importance of lesser known ones. John Richetti traces the shifting subject matter of the novel, discussing:

- * scandalous and amatory fictions*
- * criminal narratives of the early part of the century*
- * the more disciplined, realistic, and didactic strain that appears in the 1740's and 1750's*
- * novels promoting new ideas about the nature of domestic life*
- * novels by women and how they relate to the shift of subject matter*

This original and useful book revises traditional literary history by considering novels from those years in the context of the transformation of Britain in the eighteenth

After the conflagration of Tito's Yugoslavia a medley of new and not-so-new states rose from the ashes. Some of the Yugoslav successor states have joined, or are about to enter, the European Union, while others are still struggling to define their national borders, symbols, and relationships with neighbouring states. South Eastern Europe expands upon the existing body of nationalism studies and explores how successful these nation-building strategies have been in the last two decades. Relying on new quantitative research results, the contributors offer interdisciplinary analyses of symbolic nation-building in Albania, Bosnia-Herzegovina, Croatia, Kosovo, Macedonia, Montenegro, and Serbia to show that whereas the citizens of some states have reached a consensus about the nation-building project other states remain fragmented and uncertain of when the process will end. A must-read not only for scholars of the region but policy makers and others interested in understanding the complex interplay of history, symbolic politics, and post-conflict transition.

An intimate account of the American Revolution as seen through the eyes of a Quaker pacifist couple living in Philadelphia Historian Richard Godbeer presents a richly layered and intimate account of the American Revolution as experienced by a Philadelphia Quaker couple, Elizabeth Drinker and the merchant Henry Drinker, who barely survived the unique perils that Quakers faced during that conflict. Spanning a half-century before, during, and after the war, this gripping narrative illuminates the Revolution's darker side as patriots vilified, threatened, and in some cases killed pacifist Quakers as alleged enemies of the revolutionary cause. Amid chaos and danger, the Drinkers tried as best they could to keep their family and faith intact. Through one couple's story, Godbeer opens a window on a uniquely turbulent period of American history, uncovers the domestic, social, and religious lives of Quakers in the late eighteenth century, and situates their experience in the context of transatlantic culture and trade. A master storyteller takes his readers on a moving journey they will never forget.

When the five Central Asian republics gained independence from the Soviet Union in 1991, expectations of violent conflict were widespread. Indeed, the country of Tajikistan suffered a five-year civil war from 1992 to 1997. The factors that the literature on civil wars in general and on the Tajikistan civil war in particular cites as the causes of war were also present in Uzbekistan – but this country had a peaceful transition. Examining this empirical puzzle by isolating the crucial factors that caused war to break out in Tajikistan but not Uzbekistan, this book applies a powerful comparative approach to the broader question of why civil wars occur. Based on fieldwork in both countries, it challenges many common explanations of civil war both generally and in Tajikistan in particular. This includes highlighting the importance of elites' power perceptions, which have their origins in the interaction of structural-, process-, and network-related variables. Without examining these interactions, macro-structural explanations alone cannot explain the occurrence of civil war in one country and its absence in another. Applying the insights of bargaining theories of war from the literature on international relations to the civil war in Tajikistan, this book will be of interest to students of violent conflict, civil wars, Central Asia and Asian Politics.

Crisis in the church is not a new phenomenon. In fact, the church has always been - and probably always will be - involved in some kind of crisis. Even in the apostolic period, which is regarded by many as the church's golden age, there were serious crises coming both from the outside, as in 1 Peter, and from the inside, as in Jude and 2 Peter. The three short New Testament letters treated in 1 Peter, Jude and 2 Peter illustrate the problems early Christians faced, as well as the rhetorical techniques and theological concepts with which they combated those problems. In the first part of this volume, Donald Senior views 1 Peter as written from Rome in Peter's name to several churches in northern Asia Minor - present-day Turkey - in the latter part of the first century C.E. The new Christians addressed in 1 Peter found themselves aliens and exiles in the wider Greco-Roman society and suffered a kind of social ostracism. But they are given a marvelous theological Vision of who they have become through their baptism and pastoral encouragement to stand firm. They are shown how to take a missionary stance toward the outside world by giving the witness of a holy and blameless life to offset the slander and ignorance of the non-Christian majority and possibly even to lead them to glorify God on the day of judgment. In the second part of this volume, Daniel Harrington interprets Jude and 2 Peter as confronting crises in the late first century that

were perpetrated by Christian teachers who are described polemically as intruders in Jude and as false teachers in 2 Peter. In confronting the crises within their churches, the authors appeal frequently to the Old Testament and to early summaries of Christian faith. While Jude uses other Jewish traditions, 2 Peter includes most of the text of Jude as well as many distinctively Greek terms and concepts. It is clear that for the authors, despite their different social settings, what was at stake was the struggle for the faith. Daniel J. Harrington, SJ, is a professor of New Testament at Weston Jesuit School of Theology in Cambridge, Massachusetts, and general editor of New Testament Abstracts. He is a past-president of the Catholic Biblical Association of American and the editor of the Sacra Pagina series. He also wrote The Gospel of Matthew in the Sacra Pagina series. Donald Senior, CP, is a professor of New Testament studies and president of Catholic Theological Union in Chicago. He was recently appointed by Pope John Paul II to the Pontifical Biblical Commission. General editor of The Bible Today, he also co-edited The Collegeville Pastoral Dictionary of the Bible and the 22-volume international commentary series New Testament Message, and he wrote the four-volume The Passion series published by The Liturgical Press.

Starting in 1984, the British Transformers comic wasn't just a successful toy advert, it taught a generation of British schoolboys how to read through its exciting action packed pages. With sales that vied with 2000AD writers Simon Furman and Bob Budiansky created a generation of fan boys that have never looked back. Stuart Webb was one such reader, and in 2012 he began a journey looking through every single issue of the series, commenting on its highs and lows. He became the first person to look at every backup strip, every comedic cartoon and each editorial and how they worked together to create the most thorough exploration of a publishing phenomenon ever undertaken. It's also personal, full of humour and silliness and even the occasionally thoughtful moment. The final result is an essential read, for Transformers fans, and those interested in the history of Marvel comics in the UK and the impact this comic had on an entire generation.

brought to rest in new gravesites. Katherine Verdery investigates why certain corpses—the bodies of revolutionary leaders, heroes, artists, and other luminaries, as well as more humble folk—have taken on a political life in the turbulent times following the end of Communist Party rule, and what roles they play in revising the past and reorienting the present. Enlivening and invigorating the dialogue on postsocialist politics, this imaginative study helps us understand the dynamic and deeply symbolic nature of politics—and how it can breathe new life into old bones.

centric narratives that have conventionally dominated the histories of colonial New England. DeLucia grounds her study of one of the most devastating conflicts between Native Americans and European settlers in early America in five specific places that were directly affected by the crisis, spanning the Northeast as well as the Atlantic world. She examines the war's effects on the everyday lives and collective mentalities of the region's diverse Native and Euro-American communities over the course of several centuries, focusing on persistent struggles over land and water, sovereignty, resistance, cultural memory, and intercultural interactions. An enlightening work that draws from oral traditions, archival traces, material and visual culture, archaeology, literature, and environmental studies, this study reassesses the nature and enduring legacies of a watershed historical event.

This book assembles a diverse group of scholars working within a new, pathbreaking paradigm of sexual science, fusing perspectives from history, sociology, and psychology. The contributors are united in their commitment to the idea of "narrative" as central to the study of sexual identity, offering an analytic approach to social science inquiry on sexual identity that restores the voices of sexual subjects. The result is a rich examination of lives in context, with an eye toward multiplicity and meaning across the life course. Central to the chapters in this volume is the significance of history, generation, and narrative in the provision of a workable and meaningful configuration of identity.

one of the most difficult and misinterpreted texts in the Christian Scriptures, yet it is widely used in the liturgical life of the Roman Catholic Church. In *Reading Revelation at Easter Time*, Francis Moloney explores it as a celebration of the perennial and ongoing effects of Jesus' death and resurrection. After an introduction to Revelation, the book provides an interpretation for each biblical reading in the Liturgy of the Hours across the Easter period. A presentation of every passage from Revelation used elsewhere in the Roman liturgy is also provided by means of a different typeface across the commentary. Readers are invited to rejoice in the ongoing victory of "the Lamb who was slain before the foundation of the world" (Rev 13:8).
