Shooting with any kind of flash - whether it's a simple light on your camera, a remotely-triggered unit, or a complete studio setup - completely changes the photographic experience. No longer do you simply need to be aware of light; now you need to know how to

shape it to your own ends. The Flash Photography Field Guide, small enough to be taken on the most arduous shoot, will show you exactly how to do this, whether you're shooting models in a studio, live sports events, or something as personal and special as your friend's wedding. This book covers the details of setting up and using modern TTL flash systems, and the creative and technical choices you'll come across, from syncing the flash with the camera to modifying the quality of the light.

This title will provide the reader with the advanced techniques to truly master the new photographic media. Structured around the three main areas of shooting the image,

enhancing the image and enjoying the image, the Digital Photography series makes the world of digital imaging simple while concentrating on the photographic aspect. With the aid of inspirational images we are shown in easy steps how the image was taken, manipulated on the computer and output in the desired form.

Start taking pictures that are just as cute as they are! Part of the popular BetterPhoto series, this book shows photographers how to get great shots of children of all ages, under any conditions, and with any subject. Learn how to use light, composition, and exposure to help improve photographs, how to capture a moving target and how to

Revisiting the Nikon D70 & D70S

**Since Five Easy Pieces was
already taken as a title, I guess
Short Rounds will have to do.**

**Also, it seems appropriate
that, as of this writing, I have
five published books in print.
These five short stories can
serve as a complementary**

addendum to those five books. I also include a short "spiritual memoir" titled Faith Came Easy and two previously unpublished poems. I will try to let the short fiction speak for itself, but I should add that it is as eclectic as I can make it. There is mystery, science fiction, scene portraiture and even an attempt at horror. So here goes. Some quick reads and, I hope, interesting pieces. They pretty much all stand alone, except possibly "Inside Out," which utilizes the main character from my Adirondack Mystery series, Hallum Johnson. The other stories are

all orphans in character and the fact that this is the first time they have seen the light of day in publication.
