From the 1920s to the 1980s Oakeshott filled dozens of notebooks with his private reflections, both personal and intellectual. Their contents range from aphorisms to miniature essays, forming a unique record of his intellectual trajectory over his entire career. This volume makes them accessible in print for the first time, drawing together a host of his previously inaccessible observations on politics, philosophy, art, education, and much else besides. Religion in particular emerges as an ongoing concern for him in a way that is not visible from his published works. The notebooks also provide a unique source of insight into Oakeshott's musings on life, thanks to the hitherto unsuspected existence of the series of 'Belle Dame' notebooks that were written in the late 1920s and early 1930s but which only came to light two decades after his death. At the same period in which he was developing the concepts that would form *Experience and its Modes*, Oakeshott's personal life led him to reflect extensively on love and death, themes that highlight his enduring romantic affinities. Accompanied by an original editorial

introduction, the volume allows readers to see for themselves exactly which works Oakeshott used in compiling each of his notebooks, providing a much clearer record of his intellectual influences than has previously been available. It will be an essential addition to the library of his works for all those interested in his ideas.

In spite of a cascade of criticism launched against the social sciences, they have brought a qualitative improvement in method and theory to the study of human beings and human relations. In the process of developing now commonplace foundations of social research few individuals have exercised a greater role in justifying and enriching social scientific thought and practice than Harold D. Lasswell. Originally published in 1945 as *The Analysis of Political Behaviour*, this extraordinary volume has been re-titled *Legal Education and Public Policy*. The selections acknowledge Lasswell's growing anxieties about a world of revolution, violence, and terror, and the frailties of law in addressing such matters. That he did so without recourse to vague and fatuous appeals to world law and world order is an indication of how close to empirical realities he remained. Lasswell's essays fuse the legal and moral in the conduct of public policy. This did not deter him from arguing the case for and ultimate benefits of democratic values as a ground for legal thought. Lasswell singles out the interviewing technique of the psychiatrist, what he calls -the insight interview- in many of these essays. The Freudian world opened up the possibilities of analysis to political scientists who, prior to Lasswell, viewed neuroses in the leaders they studied but without normative points to measure their own biases. Lasswell's essays serve as a landmark in accelerating

rapid advance in social science research. It allowed for the evolution of political behavior that has catapulted the field to a major dimension of political science studies in leadership and mass persuasion.
