video netted her no.1 in the UK singles chart and an NME nomination, folk singer Seth Lakeman made an album in his kitchen for £300 and has been nominated for a Mercury Prize. And of course, there's the Arctic Monkeys - winners of a Mercury Prize, a Brit Award and two NME awards, who marketed their album through demo tapes and file sharing. Nicola Slade shows how anyone can record and mix killer music from the comfort of their bedroom. The author explains what hardware, software and mixing equipment is required, and includes a history of the digitisation of

music, advice on marketing and promoting your music and contributions from DIY music artists who have made it big. This expertly written guide will show you exactly why Pro Tools shrinks a full music studio into a computer, replacing the bulky recording infrastructure of multi-track analog mixing boards and rolls of two-inch-wide magnetic tape. Ideal for beginning, intermediate, and advanced producers, sound engineers, and musicians.

Sure, you can import and mix a track in Pro Tools. You can work with MIDI and you know your way around the Edit window.
