These proceedings contain research papers that were accepted for presentation at the 14th International Conference Inter-Eng 2020 ,Interdisciplinarity in Engineering, which was held on 8–9 October 2020, in Târgu Mureş, Romania. It is a leading international professional and scientific forum for engineers and scientists to present research works, contributions, and recent developments, as well as current practices in engineering, which is falling into a tradition of important scientific events occurring at Faculty of Engineering and Information Technology in the George Emil Palade University of Medicine, Pharmacy Science, and Technology of Târgu Mures, Romania. The Inter-Eng conference started from the observation that in the 21st century, the era of high technology, without new approaches in research, we cannot speak of a harmonious society. The theme of the conference, proposing a new approach related to Industry 4.0, was the development of a new generation of smart factories based on the manufacturing and assembly process digitalization, related to advanced manufacturing technology, lean manufacturing, sustainable manufacturing, additive manufacturing, and manufacturing tools and equipment. The conference slogan was "Europe's future is digital: a broad vision of the Industry 4.0 concept beyond direct manufacturing in the company".

The Encyclopedia of Clinical Pharmacy is a valuable resource for today's clinical pharmacist and pharmacotherapist. Over 200 researchers and practitioners provide ready access to more than 5,000 primary literature citations and hard-to-find research on: Gene therapy Health service delivery models Best practices documents Pharmaceutical software development Legal controversies, ethical issues, and court rulings Drug dosing and electronic prescription Post-marketing surveillance Generic equivalency Quality management procedures Educational and training programs Compiling expertise and recommendations from the American College of Clinical Pharmacy and the American Society of Health-System Pharmacists, the Encyclopedia unravels the increasing complexity of pharmacotherapy, the problems of medication-related morbidity and mortality, and the impact that clinically empowered pharmacists have on assuring safe and effective pharmaceutical care for patients. This Taylor & Francis encyclopedia is also available through online subscription, offering a variety of extra benefits for researchers, students, and librarians, including: Citation tracking and alerts Active reference linking Saved searches and marked lists HTML and PDF format options Contact Taylor and Francis for more information or to inquire about subscription options and print/online combination packages. Resources in Education

Sie arbeiten an Projekten, bei denen innovative Lösungsansätze gefragt sind - in welcher Disziplin auch immer? Dieses Buch gibt Ihnen eine Handlungsanleitung aus einer 360-Grad-Perspektive, wie Sie Design-Thinking-Projekte planen, durchführen und die Ergebnisse erfolgreich in Unternehmen oder mit externen Partnern umsetzen. Prof. Dr. Müller-Roterberg führt Sie durch alle Phasen und gibt Ihnen dabei einen bunten Strauß an Methoden an die Hand. Er erklärt Ihnen, wie Sie ein Problem verstehen und definieren, wie Sie richtig beobachten, wie Sie Ideen finden und bewerten, wie Sie Prototypen entwerfen und die Geschäftsidee testen. So gelingt Innovation!

Theories and Applications

An Introductory Guide to EC Competition Law and Practice

Within the context of integrated health management domains, pharmacoinformatics aims at maximizing the benefits from the use of information systems and technologies for the provision of decision support tools necessary for improved drug management, use, and administration practices. Pharmacoinformatics and Drug Discovery Technologies: Theories and Applications offers the latest the field has to offer to practitioners and academics alike, presented through theoretical frameworks, case studies, and future directions. This vital resource gathers an integrated pattern of high quality publications from around the world providing current, cutting-edge, and provocative scientific work in the three domains of pharmacoinformatics: decision making domains, knowledge utilization and representation environment, and the technological and infrastructural context.
