

The Traveler S Gift Seven Decisions That Determine Personal Success

The life you live today will set the stage for the kind of life you ultimately would like to have. If you are not living your ideal life, do something about it. Don't blame anyone else. Don't make excuses. Just do something about it. Do it now. Don't get to the end of your life and say "what if."

At a low point in his forty-six-year-old life, David Ponder finds himself traveling back in time to meet with some of the wisest people in history in this modern day parable of choice, success, and the true meaning of life.

"Tim has written a wake-up call for people who are waiting for life to happen. Anyone who strives to be the person God intended them to be will find inspiration and practical advice in this book."--Patrick Lencioni, author of "The Five Dysfunctions of a Team." (Practical Life)

Yet you find yourself continually struggling to bring that vision to life in your daily walk. At our very core, every one of us is a "twisted sister" within whom the flesh and spirit battle constantly for control. We are afflicted with spiritual

Just imagine. What if deep in the unexplored wilderness of your inner soul lies a secret passage into a place where silence speaks of all there is to know—a place to which we can only point—yet, once discovered, we know it better, trust it more, than any other place we could possibly conceive of or imagine? What if, beyond all you've ever feared, beyond all your doubts, even beyond all your questions, there was a simple answer waiting, waiting for just the right moment, to cut through all you thought you knew to lay, imperceptibly, at your feet the one truth that informs all the others—that right there, within you, was the treasure you've been so desperately seeking? What if you finally understood that this treasure could not be found or created—only allowed—for, in truth, it is already you? Perhaps then, you might just pass by yourself . . . and wonder.

A Self-Help Spoof for the Life Impaired Right here in this book store, you can find hundreds of them -- self-help books. They tell you how to

improve your finances, lose weight, age gracefully, and influence people. But even after reading all those books, you're still a mess. It can only mean one thing: maybe life's just not that into you. Once you open your mind to this possibility, you can quit beating yourself up. It's all about attitude. It's about the fine art of whining. It's about losing your shirt, but keeping your dignity. It's about being dull and boring, but making it work for you. It's about losing friends and influencing nobody. It's about just saying no to dieting because, well, let's be honest, carbs just taste good. A hilarious, good-natured spoof on more than fifty self-help books, this book will leave you feeling better about who you are and laughing your way to becoming the person God created you to be.

If we're being honest, most of us live comfortable, safe, and relatively easy lives. We enjoy a quality and ease of living that most of the world could not even imagine, let alone pursue. After all, even the poorest people in America are amongst the top five percent of the wealthiest people in the world, and the faces of those who suffer the most across the globe are distant and unfamiliar to us. As we busily navigate the path towards the American Dream, another dream has been forgotten--the hope that what is broken in this world may be restored to its intended fullness. The truth is we know we should help those less fortunate than us, but the needs of the world are so

overwhelming. Where do we start? Where can we make the most impact? This compelling, story-driven book urges readers to open their eyes to the needs of a hurting world. It is a gripping, to-the-point challenge to get involved in realistic, positive change--one life at a time. Building on more than twenty years of experience in humanitarian relief efforts and community development around the world, author Noel Brewer Yeatts urges readers to realize that working to build a better world is not about guilt, handouts, or charity. It is about justice, compassion, and personal investment. She encourages readers to live a life fully awake . . . and doing a world of good.

Andy Andrews has found it in the hearts of those who long to take a deep breath, relax, and take the time to find the humor and meaning in everyday life. There's a little bit of this small town in all of us - a place apart, "behind the times," inhabited by a cast of characters we seem to have known for years. The sounds, smells, colors, and textures of Sawyerton Springs are within you - an instinctive, almost mystical longing for a simpler time. In Sawyerton Springs, everyday occurrences are assigned a calm purpose. The town has no lawyers - it doesn't need any. The local paper comes out weekly, and everyone already knows what it says. Email, the Internet, computers, faxes, cell phones, microwaves, cappuccinos, call waiting, and caller ID don't exist here. The town has no traffic lights - there aren't enough cars to warrant any. This is a story that reflects upon the seemingly ordinary parts of our everyday lives - and how they are actually extraordinary parts of something much greater. Savor the time you spend in Sawyerton Springs. You might just find another hometown you want to claim as your own!

It all comes down to the truth. Much like the character in one of his best-selling books, Andy Andrews is first and foremost a Noticer. Sometimes, all one needs is a little perspective and Andy has been providing that perspective to some of the world's most influential companies and organizations for the last 20 years. His ability to transform an individual by their own understanding and desire has made him loved by millions. Now, Andy Andrews brings his lessons and perspective into the important arena of government, citizenship, and what it means to completely uphold the truth. If the truth is what sets us free, what does it mean to live in a society where truth is absent? How do truth and lies in the past shape our destiny today? Through the lens of the Holocaust, best-selling author Andy Andrews examines the critical need for truth in our relationships, our communities, and our government. In this compact, nonpartisan book, Andrews urges readers to be "careful students" of the past, seeking accurate, factual accounts of events and decisions that illuminate choices we face now. By considering

File Type PDF The Traveler S Gift Seven Decisions That Determine Personal Success

how the Nazi German regime was able to carry out over eleven million institutional killings between 1933 and 1945, Andrews advocates for an informed population that demands honesty and integrity from its leaders and from each other. The future of our country rests on the ability to separate the truth from lies, and Andrews compels each of us to examine our leaders' claims with a critical eye. His question— how do you kill eleven million people?—is provocative, but his warning is clear: "Only a clear understanding of the answer to this question and the awareness of an involved populace can prevent history from continuing to repeat itself as it already has, time and again."

Create a Magnificent NOW! is the first book about the law of attraction that presents a failsafe solution for achieving optimal health, wealth, and self-fulfillment. Coach Alex reveals what he believes is the real secret behind powerful manifestation. By embracing this secret and making it the cornerstone of the LOA process, Coach Alex believes that anyone can manifest whatever one desires -- as long as the end result will never harm anyone else. This book removes the fairy dust from the LOA and its practices of meditation, visualization, and manifestation. Coach Alex points out that magic is nothing more than physical laws scientifically explained. By citing numerous laboratory studies based on the work of some of the world's most trusted scientists, he provides measurable validation of the efficacy of the LOA through the new science of neuroplasticity. These studies also explain exactly why the LOA works. For the first time in the history of modern man, through actual demonstrations of the law of attraction, neuroplasticity
