*The Rubber Band Wars by  
Angela A. Pitenis There is a  
more complex society in  
middle school than one would

delves into the experiences  
of elementary school  
students from kindergarten  
to grade 8. The Rubber Band  
Wars is targeted for ages  
10, 11 and 12, but appeals  
to all. The characters have

*the various personalities found at school. There are six main characters that walk the readers through one month near the end of a school year. The book opens up with an accusation, as the opening line to the introduction states, "Korter started it." Conflicts develop right from that moment as the reader is puzzled as to what sort of events had taken place. Meeker, the antagonist, starts the conflict as he relentlessly pesters Kortor, the main character, and the conflict escalates from here. Tension develops between these two and the story deals with how Meeker*

and Korter recruit students to support their side, trying to prove the more support for either Meeker or Korter represents a win. Korter thought that by recruiting more people to support his efforts, Meeker would leave him alone. As tensions mounted, Meeker and Korter found a harmless method of annoying each other's team members. The choice of tools used to provoke each other was rubber bands, hence the title of this fast-paced story, *The Rubber Band Wars*. As the story unfolds, these characters create clubhouses to hold secret meetings during recess, safe from any

As the conflict progresses well into the story, there arises more twists in the story as the members in Korter's elite group separate and new members join and Meeker has his own share of troubles when the only information of Korter's next move is drenched in lemon juice and is nothing more than heaps of pulp on the floor. To make the story even more interesting, Korter despises substitute teachers and everyone knows it, and he will do anything to keep them away from his class, including his most famous pranks. to a close, the conflict starts to resolve itself. Teachers finally get involved, and resolutions begin to diffuse the conflict. The story doesn't leave the reader hanging on to last words, however. The story offers how the characters end up in their lives and what they become as adults, and it proves that just because someone seems to be a particular type of person at the moment, it doesn't necessarily mean that is the way that person will be their entire life. This is a highly recommended story for young adults who have the same sense of adventure as
