Growing up in democracy is

addressed to teachers who want to integrate Education for Democratic Citizenship (EDC) and Human Rights Education (HRE) in their daily subject teaching. Nine teaching units of approximately four lesson

plans each give step-by-step instructions and include student handouts and background information for teachers. The complete manual provides a full school year's curriculum for students in primary school

(grades 4 to 6), but as each unit is also complete in itself the manual allows great flexibility in use. It is therefore also suitable for textbook editors, curriculum developers, teacher trainers, student

teachers and beginning teachers. The objective of EDC/HRE is to teach children to become active citizens who are willing and able to participate in the democratic community.

Therefore, EDC/HRE strongly

emphasise action and task-based learning. The school community is conceived as a sphere of authentic experience where young people can learn how to participate in democratic decision making and may take
