What Is The Purpose Of Closing Journal Entries

Any part of the world can be viewed and modelled in terms of its chosen qualitative and/or quantitative properties, OR its structure. The former approach has been used by nearly the whole of ʻhuman intellectual endeavorʼ, i.e conventional science of physics, the arts etc. Development of the latter or the ʻsystemic viewʼ is the subject matter of the current work. The Purpose of Change is Problem Solving suggests that the ʻstructural viewʼ is empirical, pervasive throughout experience and as such results in a single domain as opposed to conventional science which consists of many domains like mechanics, electricity etc. Thus, a unique approach is required which is based on ʻgeneral principles of systemsʼ translated into operational form by the symbolism of processed natural language called ʻlinguistic modelling of scenariosʼ which can carry mathematics and uncertainties. To model scenarios with complex structure, a description or story in natural language is expressed in terms of homogenous language of one – and two – place sentences, the ʻelementary constituentsʼ of which complex structures can be constructed [like a variety of buildings from bricks]. To correspond to the single domain, based on the logic of causation, a single scheme of ʻManagement/producers – Product – User/consumerʼ is proposed which is immediately applicable to structuring scenarios and guides their detailed linguistic modelling or design. The approach, subject to debate, can have significant impact on society and education, especially that of engineering which lacks a ʻcomprehensive theory of structureʼ of problematic scenarios.

The Struggle of the Shi'is in Indonesia is a pioneering work. It is the first comprehensive scholarly examination in English of the development of Shiism in Indonesia. It focuses primarily on the important period between 1979 and 2004 – a period of nearly a quarter of a century that saw the notable dissemination of Shi'i ideas and a considerable expansion of the number of Shi'i adherents in Indonesia. Since Islam in Indonesia is overwhelmingly Sunni, this development of Shiism in a predominantly Sunni context is a remarkable phenomenon that calls for careful, critical investigation. There is also an important examination of the principal ideas underlying the Madhab Ahl al-Bayt, the Imamate and Imam Madhi, Ja'fari jurisprudence and ritual piety. Appropriately, in his discussion, Zulkifli provides a succinct outline of contrasts with Sunni ideas and practice. He also examines the publishing efforts that underpinned the dissemination of Shi'i ideas and the founding of IJABI (Ikatan Jamaah Ahlul Bait Indonesia) in July 2000 for the propagation of Ahl al-Bayt teachings. Given the Indonesian context, Zulkifli is also concerned with Sunni reactions to these Shi'i developments – a story that continues to unfold to the present. This book as a work of great value and significance for the continuing understanding of the richness and complexity of Indonesian Islam.

The Translation of Biblical Metaphors in Hausa and Swahili

A Discussion of the Question, Is the Roman Catholic Religion, in Any Or in All Its Principles Or Doctrines, Inimical to Civil Or Religious Liberty?

Serial set (no.11001-12000)

The Kingdom of God is Within You; What is Art?

This comparison of metaphor translations in four Hausa and six Swahili bibles identifies different methods of metaphor translation. In the focus are metaphors containing entities, which are part of the biblical cultures, but not of Hausa or Swahili speaking areas versus metaphors involving terms that Hausa and Swahili speakers are familiar with. A look at metaphors from different semantic fields (human body, animals, botany, inorganic nature, material culture, social culture) investigates if certain translation methods dominate in a particular semantic field.
